

# Welcome to class A

ecostore<sup>HP</sup> Refrigerated Counters

# You talk...

Help my business **reduce running costs** and stop us having to throw away so much food because it's no longer fresh enough to serve. We need to ensure our food is safe. The kitchen staff tell me we need a bigger refrigerated counter but we haven't got the space for one. Ideally we would like to be able to customize a counter to suit how we work and to make our workspace more ergonomic.

# ...we listen

Our answer? **ecostore<sup>HP</sup> Premium Refrigerated Counters** are industry pioneers in energy efficiency with class A and climate class 5. The HP stands for High Performance because the ecostore is the **highest performing, most energy-efficient refrigerated counter around** guaranteeing extra food safety and extra capacity.

**extrA savings**  
with class A.

**extrA food safety**  
in heavy duty  
conditions.

**extrA capacity**  
to store more  
food.

**extrA customization**  
with countless  
custom options.

# ecostore<sup>HP</sup> extra food preservation

The new **ecostore<sup>HP</sup>** line of refrigerated counters are extremely compact without compromising food preservation. Food waste is reduced and widely protected with climatic class 5.

## extra food preservation

Reduce food waste.

**Climate class 5** means optimal preservation and high performance even in heavy duty 40 °C kitchens.

# 245

liters in just over 1 m<sup>2</sup>

## extra compact

Ideal for small kitchens or when space is at a premium. **ecostore<sup>HP</sup>** line combines extra compact dimensions with extraordinary insulation.

## extra sustainable

Higher performance and a clear-conscience, **ecostore<sup>HP</sup>** use **R290**, a less aggressive and more eco-friendly alternative to traditional gas refrigerants.

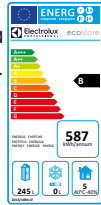

# 850

working top height - mm

**extra savings with class B**

Energy efficiency **class B** makes a real difference to your energy bill. Ask your Electrolux Professional expert to calculate how much your business can save.

**extra customization**

With countless custom options, Electrolux Professional can give you the counter you need. Ask an Electrolux Professional Partner to **create your ideal solution.**

**Easy maintenance**

Simple, fast maintenance thanks to ecostore<sup>HP</sup>'s extractable cooling unit.

**Space-saving performance**  
No need for clearance space and no compromise on performance with ecostore<sup>HP</sup> Concept's front cooling unit.

**FIRST**  
in the industry

# ecostore<sup>HP</sup> Concept extra compact

The new **ecostore<sup>HP</sup> Concept** line of refrigerated counters are extremely compact without compromising your energy bill: they are in top class A and in top climatic class 5

## extra food preservation

Reduce food waste.

**Climate class 5** means optimal preservation and high performance even in heavy duty 40 °C kitchens.

## extra design

Show off your kitchen! **ecostore<sup>HP</sup> Concept's** ergonomic design make it the perfect addition to our static preparation

**+ 50**  
liters

## extra customization

With countless custom options, Electrolux Professional can give you the counter you need. Ask an Electrolux Professional Partner to create your ideal solution.

## extra sustainable

Higher performance and a clear-conscience, ecostore<sup>HP</sup> Premium use **R290**, a less aggressive and more eco-friendly alternative to traditional gas refrigerants.

## CO<sub>2</sub> remote models

CO<sub>2</sub> is a natural refrigerant, safe for the environment. It is non-flammable, non-toxic and **20% more energy efficient\***, with a heat exchange 5 times higher\* than a standard HFC system. CO<sub>2</sub> is climate friendly, has no Ozone Depletion Potential and its Global Warming Potential is one.

\*comparison based on a cooling circuit using HFC R404A, among the best refrigerants used in refrigeration. Specific remote models available on request.

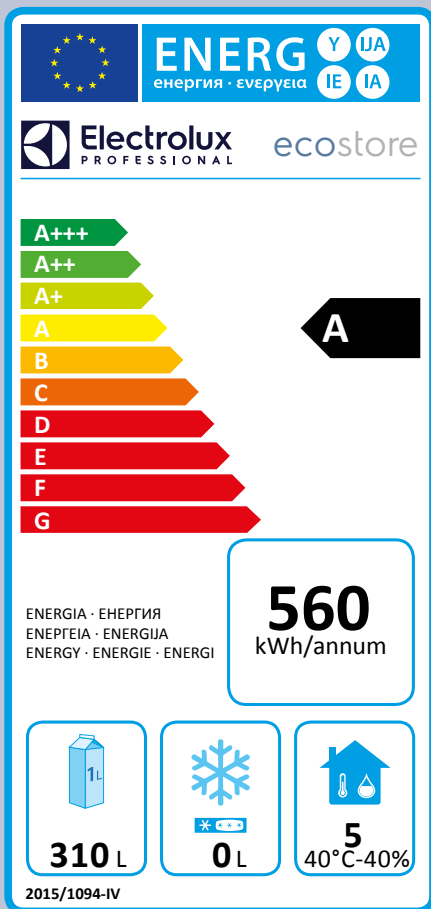

## extra design

Show your kitchen off! The **ergonomic design** of ecostore<sup>HP</sup> Premium looks great and is easy to install whether free-standing or built-in to the sleek Electrolux Professional static preparation.

**FIRST**  
in the industry

# extra savings extra efficient

Want to cut your electricity bill by **80%**? The Electrolux Professional **ecostore<sup>HP</sup> Premium** Refrigerated Counter with energy label A and climate class 5 consumes just 560 kWh per year. That's a **saving\*** of up to **€ 480 a year**.

## Look for energy label A in climate class 5 to find the greenest refrigerated counter

For the first time, professional refrigeration solutions now come with a European Energy Label, making it easy to see how energy-efficient they are.

### 310, the highest volume

NET volume information is given on the label and is now calculated according to standard legislation indicating real food storage capacity.

### 5, the safest climate class

Climate class indicates a refrigerator's ability to correctly preserve food in different ambient conditions:

- ▶ 5: "heavy duty": performs at 40 °C ambient temperature and 40% humidity
- ▶ 4: "normal duty": performs at 30 °C ambient temperature and 55% humidity
- ▶ 3: "light duty": performs at 25 °C ambient temperature and 60% humidity

## R290

"R290 gas reduces environmental impact and has a less aggressive effect on the refrigerator's components than older traditional gas."

\* Potential energy saving based on EU legislation labelling obtained by comparing class G refrigerated counters with equivalent in class A (with EU average energy cost of 0,21 €/kWh and net volume of 310 l).

## CO<sub>2</sub>

CO<sub>2</sub> is a natural refrigerant, safe for the environment. It is non-flammable, non-toxic and 20% more energy efficient\*, with a heat exchange 5 times higher\* than a standard HFC system. CO<sub>2</sub> is climate friendly, has no Ozone Depletion Potential and its Global Warming Potential is one.

\* comparison based on a cooling circuit using HFC R404A, among the best refrigerants used in refrigeration. Specific ecostore<sup>HP</sup> Premium remote models available on request

## Natural gases – a responsible alternative

Extra efficient. The latest generation of Electrolux Professional Refrigerated Counters use **R290 natural gas** in the cooling unit.

The use of Cyclopentane as the foam insulating agent gives 20% more efficient insulation than traditional foaming gas. R290 and Cyclopentane are not harmful to the ozone layer and do not contribute to the greenhouse effect. ecostore<sup>HP</sup> Premium is IQM certified.

**Scan**  
to calculate savings

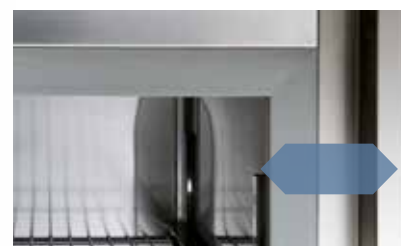

## Frost Watch Control

Save energy and keep food safe with this smart automatic defrost which takes only as long as absolutely necessary.

## Extra insulation

Greener and more cost-effective. **90mm-thick** stainless steel and Cyclopentane gas keep the internal temperature consistent, cutting heat loss and compressor activity.

# 90 mm

## Cut energy consumption

Greater efficiency means greater savings. Less condensation and less energy loss thanks to the removable wide balloon gasket, with triple insulation area.

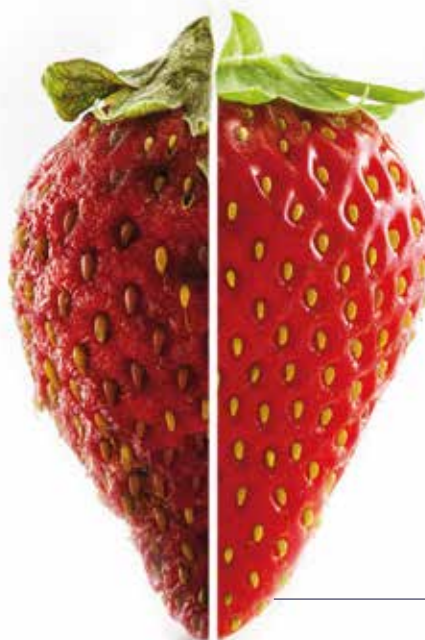

# extra food safety

Reduce food waste with Electrolux **ecostore<sup>HP</sup> Premium** Refrigerated Counters thanks to **OptiFlow** and **climate class 5** even in the hottest and busiest kitchens.

## Reduce food waste with OptiFlow and climate class 5

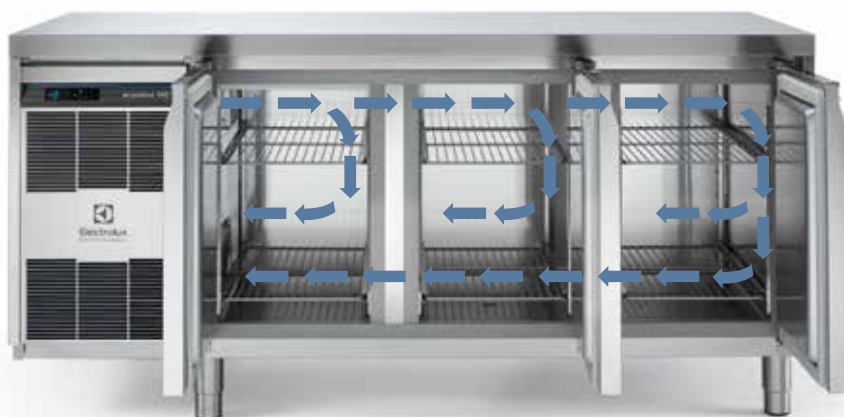

Optimal food  
preservation with  
**ecostore<sup>HP</sup>**

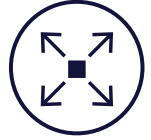

### Food safety

High performance. Reduced waste. Variations in temperature are the main cause of food spoilage, that's why Electrolux Professional Refrigerated Counters are fitted with **OptiFlow, an intelligent air circulation system**, which maintains a constant interior temperature no matter how many times the door gets opened and closed. **ecostore<sup>HP</sup>** is the extra performing counter with a climate class rating of 5.

**ecostore<sup>HP</sup> Premium** achieves optimal food preservation by creating a **microclimate** with the **ideal conditions** for all different food types which need specific temperatures and humidity levels.

# extra capacity

Need more storage but don't have the space? Electrolux Professional **ecostore<sup>HP</sup> Premium** Refrigerated Counters give you an average of **50 liters** more refrigeration capacity than equivalent counters.

## Bigger and better

Store more food and reduce costs. With an extra 50 liters\* of storage and 700 mm height, **ecostore<sup>HP</sup>**'s ingeniously designed interior and compact dimensions make it best in class for performance and running costs per liter. **That's like buying 5 counters and getting one for free!**

\* Compared to equivalent 3-door refrigerated counters on the market

20% more storage  
than other  
refrigerated counters

**FIRST**  
in the industry

extra  
**50**  
liters

# extra customization

Need a personalized refrigerated counter? The possibilities to customize the **ecostore<sup>HP</sup> Premium** Refrigerated Counter are endless.

## Use the simple online configurator

Create the perfectly ergonomic combination for you.  
Select a built-in or remote counter.  
Decide to have the front cooling unit on the left or right.  
Choose from numerous custom options such as the position, size and number of drawers and compartments, and different tops, splashback and feet.
