ProThermetic Sprint Braising Pans

Reliability and flexibility all in one. The thermaline ProThermetic Sprint range offers the best solution for high productivity kitchens: central kitchens and airport catering, hospitals, school canteens, big hotels and restaurants.

Durable and Reliable

The ProThermetic Sprint braising pans and pressure braising pans deliver outstanding results **even in the toughest conditions.**

- ▶ Extremely robust, warp resistant and insensitive to thermal shocks, guaranteeing temperature stability with full loads of food, even with frozen products.
- ▶ Internal surface of the vessel is in DIN 1.4301/AISI 304 for greater resistance even with acidic products.
- ▶ With 33 mm thick bottom plate on electric versions and 18 mm thick on gas, for quick temperature recovery.
- ▶ Chassis, supporting frame and structure made of stainless steel (DIN 1.4301/AISI 304) 3mm thick.

Top performances

The high performance powerblock* heating system ensures precise temperature control as well as even heat distribution for more efficiency and excellent cooking results even with big loads, regardless low installation power required.

Thanks to minimal temperature drop and fast temperature recovery the consistent and high quality cooking results are guaranteed day after day.

* electric versions

High Flexibility

- ▶ **Pressure cooking*** ensures a dramatic reduction in the cooking time, providing high food quality and saving energy.
- ▶ **Braise and steam*** at the same time thanks to the possibility of using gastronorm containers on the top to steam vegetables or rice while braising below.
- ▶ **Multi-zone grilling****
Set different temperatures on the left and right zones and cook different foods at the same time or create a holding zone for the same product managing the preparation on a single plate.
- ▶ **Braising or boiling** mode are easily selected with the touch control.
- ▶ **In boiling mode** all the boiling pan functions are available.
- ▶ Power level control and soft function available in both boiling and braising modes for the best food quality and energy savings.

* pressure braising pans
** electric versions

ProThermetic Sprint Boiling Pans

High performance and versatility at its best. Make your work day simple and profitable with *thermaline* ProThermetic Sprint Boiling pans. The ideal choice to prepare large quantities while maintaining excellent quality.

Durable and Reliable

The ProThermetic Sprint boiling pans deliver outstanding results **even in the toughest conditions**

- ▶ Internal surface of the vessel is in DIN 1.4404 AISI 316L for greater resistance even with acidic products
- ▶ Heavy duty cooking well from 3 mm up to 5 mm thick (depending on capacity, top or bottom of the machine)
- ▶ Chassis, supporting frame and structure made of stainless steel (DIN 1.4301/AISI 304) 3mm thick.

Top performances

- ▶ **Perfect boiling** with the highest uniformity thanks to the indirect heating system which guarantees cooking quality without sticking.
- ▶ Thanks to the indirect heating system with steam at 1.5 bar (125°C) pressure, heating times are reduced automatically.
- ▶ The design of the pan ensures ideal heat distribution as well as an easy stirring process and the possibility to prepare small food quantities.

High Flexibility

The Chef's best friend

Ideal for any **creamy preparations** such as hummus, sauces, soups, purées and mashed vegetables.

Easy mixing and stirring

Electric boiling pans are equipped with a stirrer (specific models) offering the possibility of three stirring cycles: one direction, two directions with 4-second pause, two directions with 16-second pause.

Flexible and high performing with variable speed stirrer*

- ▶ Powerful variable speed stirrer 3,8 kW at 100 rpm
- ▶ Variable from 10 rpm up to 100 rpm
- ▶ Speed control via touch panel
- ▶ Specific stirrer for mashed potatoes

* on specific models

ProThermetic Sprint, the smart choice

A wide range, complete with all you need to start cooking right away.
Plug-in ready with a full set of included accessories

- ▶ **Core Temperature Sensor** on Pressure Braising Pans, for very precise cooking.
6-point probe for precise temperature measurement, easily managed via touch panel

- ▶ **Rear Closing Panel**

- ▶ **Automatic Water Filling** precise to the liter with **swiveling arm**.
It fills up the appliance with a volume of water set by the user.
The control of the mixing tap is with the touch panel with precise to the liter selection.

ONE body height and ONE depth:

- ▶ **H=700** - body height 700 mm
- ▶ **D=900** - depth 900 mm. Depth 1000 mm - on specific boiling pan models.

Units can be installed on:

- ▶ **Feet**
- ▶ **Stainless steel plinths**
- ▶ **On site concrete**
- ▶ Can be connected to Modular 90 and ProThermetic tilting/stationary units (900 mm depth)

- ▶ **Spray Gun** for fast cleaning.
Thanks to the high degree of water protection, the appliances can be quickly cleaned by spraying water directly onto the outer surfaces, including the touch screen display.

Intuitive GuideYou Panel

An easy to follow, step-by-step guide that assists operators during multiphase recipes, allowing a proper, controlled cooking process for the best appliance optimization.

Clear notifications on the display indicate the next actions to be performed such as **preheating, load food, water filling and change stirrer settings**. Receive reminders, in line with the **Essentia** program, to guarantee proper maintenance, avoiding downtimes.

Soft Cooking Function

The ideal choice for delicate food.

In **Boiling Mode**, Soft Cooking is available **up to 100°C**

In **Braising Mode** up to **120°C** (cooking surface temperature)

The Soft Cooking Function finely regulates the power to reach the set temperature. High quality of food is maintained as delicate/thick foods do not stick to the surface

Power Level Control

Cooking with the right degree of boiling.

The Power Level Control allows to set from soft to fierce boiling by adjusting the selected level of power (from 1 to 9)

In braising mode, the Power Level Control will limit the cooking surface temperature up to 140°C

Multiple benefits

Simple and Effective Control with the Touch Screen Panel

- ▶ Actual and set temperature
- ▶ Set and remaining cooking time
- ▶ Deferred start
- ▶ Pre-heating phase
- ▶ Soft function
- ▶ Pressure cooking (pressure braising pans)
- ▶ Power level control from simmering to strong boiling
- ▶ Stirrer (round boiling pans)
- ▶ Multi-phase cooking program
- ▶ GuideYou Panel
- ▶ Preventive maintenance alerts

Easy Management of Recipes and HACCP Data with the USB Connection

By means of a simple USB connection, up to 1,000 personal recipes can be saved, stored and transferred to other appliances, replicated and even sent via e-mail to be used in any ProThermatic-equipped kitchen, ensuring cooking uniformity in terms of quality and taste throughout different outlets. In addition, the USB key allows you to download HACCP data and upload it in your PC without the need for a specific software.

End of the Day

Reliability in all conditions

The ProThermatic range is certified IPX6*, 8 times higher than market standard protection against strong jets of water on electric and gas heated appliances.

Connected solutions

Complete range is predisposed for remote monitoring system for better control, traceability of operating data and in-time service.

*The thermaline products exceed all international IEC standards (60529) regarding water flow: IPX6 water protection level guarantees a flow of 100 litres/minute at 2,5 bar, at the distance of about three metres, lasting 4 minutes and reaching 400 litres of water.

Multiple savings

-20%
Up-front investment

More space and lower running costs with ProThermetic Sprint Pressure Braising Pans

As kitchens are getting smaller and menus are growing larger, ProThermetic Sprint Pressure Braising Pans can replace a number of appliances, offering many advantages:

- ▶ Less space needed for the appliances (-45%)
- ▶ Lower cleaning costs (-40%)
- ▶ Lower investment (-20%): 2 appliances in 1
- ▶ Lower labor costs due to easy and error-proof operations

Energy consumption is significantly reduced thanks to the optimized heating system, the precise temperature control and the high density insulation.

-80%
Energy saving

-60%
Cooking time

*Calculations based on internal tests comparing the Pressure Braising Pan to the traditional system = Boiling + Braising Pan.

Excellent savings with the ProThermetic Sprint Boiling Pans

**Do More in Less Time.
Boiling 40% Faster**

The *thermaline* Boiling Pans are very high performing. The **closed double-wall indirect heating system** grants rapid heating and cooking times, thanks to the steam pressure at **1.5 bar**, generating 125 °C within the double jacket. **The heating time (20-90 °C) of 100 lt Electric Boiling Pan is less than 30 Minutes.**

Save Energy and Money

Benefit from higher energy savings and more pleasant working conditions thanks to the **insulated double-wall** and **double insulated lid** that keep all the heat in the units, providing less dispersion into the environment.

Material	Stainless Steel AISI 304 - DIN 1.4301	

Drain strainers

Range	Tilting Pressure Braising Pans	
Appliance typology	90 L	170 L
Size WxD	700x270 mm	1070x270 mm
Hole diameter	5.5 mm	
PNC	913575	913574
Material	Stainless Steel AISI 304 - DIN 1.4301	

Base plates and baskets

Base plates for boiling pans

Range	Tilting Boiling Pans (without stirring device)		
Appliance typology	60 L	100 L	150 L
Size WxDxH	507x507x25 mm	628x628x25 mm	698x698x25 mm
PNC	910031	910033	910034
Material	Stainless Steel AISI 304 - DIN 1.4301		

Base plates for boiling pans

Range	Tilting Boiling Pans (without stirring device)	
Appliance typology	200 L	300 L
Size WxDxH	788x788x25 mm	888x888x25 mm
PNC	910035	910036
Material	Stainless Steel AISI 304 - DIN 1.4301	

Baskets for boiling pans

Range	Tilting Boiling Pans (without stirring device)			
Appliance typology	60 L	100 L	150 L	200 L
Size WxDxH	507x507x124 mm	628x628x124 mm	698x698x124 mm	788x788x124 mm
Hole diameter	8 mm			
PNC	910021	910023	910024	910025
Material	Stainless Steel AISI 304 - DIN 1.4301			

- ▶ Baskets for 300 liters boiling pans are available on request with S-code

Suspension frames, GN containers, false bottoms

Suspension frames GN 1/1

Range	Tilting Pressure Braising Pans	Tilting Braising Pans
Appliance typology	90 L - 2 pcs 170 L - 3 pcs	90 L - 2 pcs 170 L - 3 pcs
PNC	910191	912709
Material	Stainless Steel AISI 304 - DIN 1.4301	

- ▶ Needed in order to accommodate GN 1/1 containers inside the cooking vessel.
- ▶ According to the capacity of the cooking vessel, the optimal number of pieces is showed.

Perforated GN 1/1 containers with handles

Range	Braising and Pressure Braising Pans		
Height	100 mm	150 mm	200 mm
PNC	910211	910212	911673
Material	Stainless Steel AISI 304 - DIN 1.4301		

False bottom GN 1/1

Range	Tilting Braising and Pressure Braising Pans
Appliance typology	80/90 L - 2 pcs 170 L - 3 pcs
Size WxDxH	535x335x30 mm
PNC	910201
Material	Stainless Steel AISI 304 - DIN 1.4301

- ▶ According to the capacity of the cooking vessel, the optimal number of pieces is showed.

Shovels and scrapers

911577

911578

Shovels

Range	Braising and Pressure Braising Pans	
Type	Perforated	Not Perforated
Size WxDxH	150x331x168 mm	
PNC	911577	911578
Material	Stainless Steel AISI 304 - DIN 1.4301	

911579

913431

913432

Scrapers

Range	Braising and Pressure Braising Pans		
Type	With horizontal handle	Without handle	With vertical handle
Size WxDxH	200x135x125 mm	545x4x150 mm	545x4x600 mm
PNC	911579	913431	913432
Material	Stainless Steel AISI 304 - DIN 1.4301		

Food taps and measuring rods

Food taps 2"

 **Factory fitted**

Range	Tilting Braising and Pressure Braising Pans, factory fitted	Tilting Boiling Pans, factory fitted
PNC	912780	912779

► Units to be ordered as S-codes

Measuring rods

Range	Tilting Boiling Pans		
Appliance typology	60 L	100 L	150 L
PNC	910042	910044	910045
Material	Stainless Steel AISI 304 - DIN 1.4301		

Measuring rods

Range	Tilting Boiling Pans	
Appliance typology	200 L	300 L
PNC	910046	910047
Material	Stainless Steel AISI 304 - Din 1.4301	

Stirrers

Stirrers with scrapers

Range	Tilting, Electric Round Boiling Pans		
Appliance typology	60 L	100 L	150 L
PNC	910091	910093	910094
Material	Stainless Steel AISI 304 - DIN 1.4301		

Range	Tilting, Electric Round Boiling Pans	
Appliance typology	200 L	300 L
PNC	910095	910096
Material	Stainless Steel AISI 304 - DIN 1.4301	

- ▶ Not included with the boiling pan, must be ordered separately
- ▶ To be ordered for boiling pans predisposed for stirrer only
- ▶ Scrapers can be removed
- ▶ Can also be used in boiling pans with variable speed stirrer

Stirrers without scrapers

Range	Tilting, Electric Round Boiling Pans		
Appliance typology	60 L	100 L	150 L
PNC	910061	910063	910064
Material	Stainless Steel AISI 304 - Din 1.4301		

Range	Tilting, Electric Round Boiling Pans	
Appliance typology	200 L	300 L
PNC	910065	910066
Material	Stainless Steel AISI 304 - Din 1.4301	

- ▶ Not included with the boiling pan, must be ordered separately
- ▶ To be ordered for boiling pans predisposed for stirrer only.
- ▶ Can also be used in boiling pans with variable speed stirrer

Mashing stirrers

Range	Tilting, Electric Round Boiling Pans		
Appliance typology	150 L	200 L	300 L
PNC	913543	913544	913545
Material	Stainless Steel AISI 304 - DIN 1.4301		

- ▶ Included in Boiling pans with variable speed stirrer.
- ▶ Recommended for mashing cooked vegetables, preparing puree, or mixing dense products.
- ▶ Cannot be used in boiling pans with standard stirrer

Energy optimizer, connectivity kit, power sockets

Kit energy optimizer / Potential free contact

Range	All ProThermetic, factory fitted	
PNC	912737	

- ▶ The kit is used to prearrange ProThermetic electric appliances of standard voltage 400V 3N for energy optimization or external surveillance systems

Connectivity kit

Range	All ProThermetic, factory fitted	
PNC	913577	913578*

- ▶ Kit to connect the units to the network via cable
 - ▶ Suitable for HACCP data collection (replacing the previous 912781)
 - ▶ These kits are not required to download HACCP log to a USB drive
- *Specific version for boiling pans with variable speed stirrer

Power sockets built in

Range	All ProThermetic, factory fitted				
Type	CEE	CEE	Schuko	CH Typ 23	CH Typ 25
Voltage	400	400	230	230	400
Ampere	16	32	16	16	16
IP Rate	IP67	IP67	IP68	IP55	IP55
Picture					
PNC	912468	912469	912470	912471	912472

- ▶ Units to be ordered as S-codes

Main switches, emergency stop

Main switches

Range	All ProThermetic, factory fitted	
Ampere	25	
Section	2.5 mm ²	4 mm ²
Type	All Gas	Electric PBOT06 PFET09 PUET09
PNC	912702	912773

Range	All ProThermetic, factory fitted	
Ampere	60	
Section	6 mm ²	10 mm ²
Type	Electric PBOT10 PBOT15 PFET08 PFET17 PUET17	Electric PBOT20 PBOT30
PNC	912740	912774

► Units to be ordered as S-codes

Emergency stop

Range	All ProThermetic, factory fitted
PNC	912784

- Already included in units with stirrer device.
- Installed on the left side
- Units to be ordered as S-codes

External touch control, manometer

External touch control devices

Range	All Tilting, factory fitted
PNC	912782

- ▶ Installed on the right side.
- ▶ Units to be ordered as S-codes

Manometer

Range	Tilting Boiling Pans, factory fitted
Appliance typology	all
PNC	912490

- ▶ Mainly for Hong Kong
- ▶ Boiling pans to be ordered as S-Codes. For gas boiling pans, also 912490 to be ordered as S-Code

Stainless steel plinths, bottom plates with feet

Stainless steel plinths

Range	All Tilting, factory fitted	
Depth	900 mm	1000 mm
Height	200 mm	200 mm
PNC	911425	911812
Material	Stainless Steel AISI 304 - DIN 1.4301	

- ▶ ProThermetic Sprint range is supplied without feet or plinths.
- ▶ Without feet or plinths can only be installed on concrete.
- ▶ Each appliance requires two plinths (quantity 2).

Bottom plates with 2 feet

Range	All Tilting, factory fitted	
Depth	900 mm	1000 mm
Height	200 mm	200 mm
PNC	911930	911475
Material	Stainless Steel AISI 304 - DIN 1.4301	

- ▶ Each appliance requires two bottom plates (quantity 2).

Connection kits

Connection kits - thermaline ProThermetic Sprint, ProThermetic standard and Modular 90

Depth	900 mm		
Width	25 mm		
Splashback	Yes	No	
PNC	912499	912502	
Material	Stainless Steel AISI 304 - DIN 1.4301		

- ▶ Kit contains: one adapter rail, one connecting rail, screws.
- ▶ Units to be ordered as S-codes

Connection kits - thermaline ProThermetic Sprint to Modular C90

Depth	900 mm			
Width	42.5 mm			
Splashback	Yes		No	
Side	C90 on the right	C90 on the left	C90 on the right	C90 on the left
PNC	912981	912982	912975	912976
Material	Stainless Steel AISI 304 - DIN 1.4301			

- ▶ Kit contains: one adapter rail, one connecting rail, screws.
- ▶ Units to be ordered as S-codes

Excellence is central to everything we do. By anticipating our customers' needs, we strive for Excellence with our people, innovations, solutions and services. To be The OnE making our customers' work-life easier, more profitable – and truly sustainable every day.
