TANGO XP

ELEVATED EXTRACTION AND CONTROL.

The UNIC Tango XP is born from UNIC's heritage and expertise in crafting powerful commercial espresso machines. It offers the highest extraction controls to deliver nothing but exceptional espresso shots. The Tango XP Duo is a real performer, delivering up to 440 espresso cups per hour with maximum consistency and ease.

TANGO Brew Group - Excellence in Every Cup

- Ensures higher quality and consistent nuances of espresso.
- Robust brew group with a dedicated motor allows full, consistent tamping pressures.
- Ejection system with a separate motor eliminates coffee jams.
- Satisfies baristas and customers with expertly balanced extractions.

Performs Beyond Expectations

- High precision 83mm flat burr grinders produce optimum fresh ground coffee.
- Produces a uniform, consistent coffee grind, that helps extract a finer cup of espresso.

Designed for Efficiency and Accessibility

- 10" intuitive touch screen with a clear, user-friendly menu.
- For quick and easy maintenance and cleaning, components are mounted with a consistent screw size and can be accessed with one simple tool.
- Provides efficient access, crucial during peak hours.
- Best-in-class craftsmanship for durability and performance.

Built for High Production

- TANGO has a high production capacity for peak dayparts redefining espresso delivery for busy operations.
- The TANGO Duo can produce up to 440 espresso cups per hour.
