

HeroDry Preserve the Planet embrace reusable cups

At Electrolux Professional, we are strongly committed to protecting our environment. The transition to a greener world has started and HeroDry, the free-standing blower, is one of our sustainable solutions.

Be Earth-friendly. Save up to 60% in energy * thanks to the innovative energy efficient solution

Dry up to 750 cups/h at 50 °C. Make your tableware ready to be used immediately

Improve operators' efficiency. Provide them with an easy-to-use appliance

Customizable on-site. Designed to fit in all working spaces

Go green Go for a high performing and energy efficient solution

International directives are aiming more and more at a mandatory reduction of single-use consumables. EU Norm 2019/904 requires that EU Member States adopt measures aimed to reduce the consumption of certain single-use plastics, affecting the food&beverage sector as well.

Save time and reduce costs

Reusable cups run out fast during busy times? HeroDry is the ideal support in the washing area. It permits to **dry quickly and perfectly** thanks to the innovative system of high air temperature use. Cut your energy bill and get the **best for your operators' working time**.

Hygiene guarantee

The **airflow temperature at 50 °C** will make your tableware dry at the end of the cycle and ready to be used immediately without extra manual operation.

Create your own solution

Render your washing area forceful and faster. Add the HeroDry solution next to your Hood Type machine. HeroDry is **customizable on-site,** frontal, left or right feeding direction and corner configuration.

Select the cycle that best fits your needs

Suitable for quickly drying **all types** of reusable tableware: glass, ceramic, aluminum and even reusable plastic tableware.

*Internal test done in Electrolux Professional R&D Laboratory. Comparison done with the average standard programs common in the market vs the eco cycle program by HeroDry.
