

# Creativity meets speed

with GourmeXpress High Speed Oven

Rapid cooking,  
with high quality  
results

Easy-to-use  
cooking program  
and clean operations

Versatility of  
creating a wide  
variety of foods

# Gourmet experience has never been so fast and easy

High Speed cooking is a portfolio of fast, versatile solutions allowing you to serve high quality of products in a consistent way, day after day, regardless of the user. Improve the flexibility in your installations, thanks to the ventless solution that requires no water connection or drain.

**Looking for a quick and versatile solution for your food service needs? Discover GourmeXpress!**

**Our fast and easy-to-operate solution guarantees rapid service, even in small spaces**

Allow your staff to consistently serve delicious food, no matter the operator! Thanks to the intuitive and easy-to-use **5-inch touch display** and the three heating methods, including **microwave, vertical hot air impingement, and convection**, you will be able to serve food fast and consistently.

The GourmeXpress will simplify your workflow and expand your menu offerings, supporting your profitable growth.
