## R290

### Extra sustainable R290

Electrolux Professional Ice Makers range uses R290, less aggressive and more eco-friendly alternative to traditional gas refrigerants, assuring:

- ▶ Lower energy consumption
- ▶ Longer lifetime of components

# Discover the complete range

Ice plays a crucial role in various sectors. From chilling beverages and preserving food to creating visually appealing displays, the type and quality of ice can enhance your customers' experience and set you apart from the competition.

## Ice cubers

From 22 to 155 kg of cubes per 24 hours

## Half Dice Ice Makers

From 140 to 237 kg of half dice ice per 24 hours

## Granular Ice Makers

From 66 to 655 kg of granular ice per 24 hours

Appreciated for the elegant shape and for its high performance, the **truncated cone** shape makes them suitable for all types of glasses.

Its fast cooling action and **slow dilution** keep drinks chilled for a long time. Gourmet ice type, used for garnishing drinks in bars.

### Business segments:

- Hotels, restaurants, bar, discos

High speed ice: **quick to produce** cubes that cool the drink at full speed. Its greater surface for heat exchange promotes **rapid chilling**.

Meeting the needs of fast-food businesses: versatile uses, high productivity, fast cooling drinks.

### Business segments:

- Quick service restaurants and discos

Ice produced just below zero degrees Celsius.

Highly **versatile**, it's suitable for **multiple** applications, including fish display counters, buffet displays, as well as champagne buckets.

### Business segments:

- Retail, industry, medicine
