

# ecostore HPe Cabinet with pressed-guides

Not every innovation  
is visible at first glance...

Multi-directional  
Optiflow

**PATENT PENDING**

(EP25203398.0)

Ultra  
efficient  
space

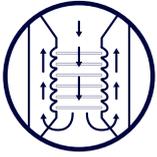

Quick  
cleaning

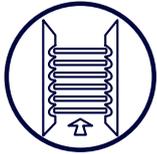

... but it makes  
all the difference

Outstanding energy efficiency, performance, preservation and cleanability, our ecostore HPe range is now powered by top ergonomomy thanks to a unique design of pressed guides.

# Designed for simplicity, built for results

**Multi-directional Optiflow**  
Full loaded cabinet? No problem! The multi-directional Optiflow guarantees the best cool distribution thanks to the unique design.

**Ultra efficient space**  
Maximum stability and anti-tip safety, even with heavy items with no need of holding grids.

**Quick cleaning**  
Streamlined design for faster, effortless cleaning to meet top hygiene standards thanks to the one-piece pressed guides.

## Sustainable facts

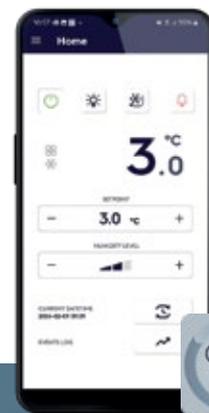

**Energy efficiency**  
Choose a product that exceeds expectations - designed for sustainability and cost-effectiveness, it offers **low energy consumption of just 299 kWh/year** on 496 lt storage capacity.

### Storage capacity

Best in class in storage capacity (versus competitors with pressed guides cabinets): 496 net litres in 24 positions and 55mm pitch.

**90mm insulation thickness** and Cyclopentane gas keep the internal temperature consistent, cutting heat loss and compressor activity.

**Frost Watch Control:** an intelligent defrost which provides great advantages in kitchens with frequent door openings optimizing defrosting avoiding sudden changes in temperature, reducing bacterial proliferation, food damage and high energy consumption.

### Easy to Use

Making life easier for our customers through Electrolux Professional Fridge Control App\*: save time and easy HACCP data management, quick operations and monitoring.
