# Superior fabric and garment care, protection everyday

Also available as **HEAT PUMP\***

Get the same benefits and quality results with less energy consumption. **Save money, help the planet.**

\*For a drying cabinet with heat pump, good ventilation in the laundry room is important. Please contact an authorized ventilation technician for advice.

## Outstanding flexibility

Designed not only for delicate garments, but also for protective work-wear, outdoor clothing and bulky items. Drying cabinets meet all your needs.

## Save time

Fast and gentle drying, quicker and better than hang-or flat-drying. **Dry 6 kg cotton load in less than 45 minutes!**

## Save space, money and energy

Dry a good size load whilst saving energy and money thanks to **programs that stop automatically** when the load is dry. Also discover the **Heat Pump version** for **unbeatable savings.**

## Incredibly user-friendly

- ▶ Easy-to-use control panel with automatic programs
- ▶ Ergonomic positioning of control panel and door handle
- ▶ Relief script in vented dryers and braille system in Heat Pump touch screen
- ▶ Child safety start lock

## Top-quality results and textile care

thanks to gentle drying you can extend the lifetime of your garments and workwear.

**Non-mechanical action drying** means drying cabinets are suitable for any segment requiring drying delicate items (wool, linen) or/and bulky items (shoes, helmets, work wear). Any functional accessories or elements such as zips, reflective stripes or coatings are also protected.

# Gentle and efficient drying solutions for your customers, guests and employees

## The best choice for mountain and school clothing

Drying cabinets are the perfect choice for mountain sports clothing - after skiing you need to dry your ski suit, boots and gloves quickly enough to wear them the next day. Drying cabinets are also perfect for use in kindergartens and schools to dry children's jackets and shoes after they have played outside in the rain, reducing the risk of them catching cold and getting sick from wet clothing.

## Gentle drying for delicate fabrics and fine clothing

When it comes to protecting wool, velvet, silk and linen, conventional drying solutions may risk quality because of the mechanical action, this is especially true for long dresses and shirts.

Drying cabinets are the perfect solution, not only for laundries but also for hotels which can then offer an impeccable laundry service for 100% customer satisfaction.

## Work worry-free in tip-top condition!

Firefighters and road workers often work outdoors and can get caught in the rain. In these cases there is no need to wash the uniforms every time, only to make sure they are perfectly dry. Your employees can now work worry-free as zips, reflective stripes or coatings on their work-wear is perfectly protected with our quality promise for fast and effective drying.

Thanks to the Line 6000 Drying Cabinets, you can enjoy a worry free laundry experience every single day.

# Different customer needs? One perfect solution

"Our kids love playing outside - in all weathers. The Drying Cabinets dry their clothes quickly which keeps the air indoors dry too!"

(Claudia Doden, preschool teacher)

"In the winter season we offer warm ski boots and dry functional clothing and gloves as part of our service - thanks to the Drying Cabinets"

(Michelle Marchand, ski-resort manager)

"The lives of people in our company depend on their high-quality work clothing. These Drying Cabinets protect the garments' and extend their lifetime."

(Peter Wagner, general manager)

"For gently drying evening dresses, expensive curtains or waterproof outdoor clothing, the Drying Cabinet is indispensable."

(Ewa Hanson, laundry shop customer)
