Built for commercial laundry.

wascomat

Part of Electrolux Professional Group

Built for life.

Wascomat offers a complete range of commercial laundry solutions designed for everyday demands.

From compact machines to high-capacity systems, every product is built to deliver dependable performance and long-term value.

Since 1955, Wascomat has been manufacturing commercial laundry machines built to endure the demands of everyday use.

Today, that experience is built into every machine. Designed for continuous operation and demanding laundry environments, Wascomat equipment combines durable construction, proven systems and intelligent controls to deliver reliable performance year after year.

No unnecessary complexity. Just equipment built to work and built to last.

The Endurance Line

Designed for demanding laundry environments, the Endurance Line brings together the qualities at the heart of Wascomat - dependable performance, efficient operation and durability.

From hotels and hospitals to care homes, schools and self-service laundries, these machines support continuous operation with dependable performance and straightforward operation.

Wascomat washers are engineered to reduce water and energy consumption while delivering consistent results. Our dryers combine intelligent control and optimized airflow to provide efficient drying with lower energy use and shorter drying times.

Designed around proven systems, durable construction and practical engineering, the Endurance Line helps keep laundry operations moving with less disruption and lower running costs.

Smart Connectivity

Designed for simple, connected operation, intelligent controls make it easy to manage settings and monitor performance. Selected models also include features such as USB connectivity and intuitive graphic displays for added convenience.

Introducing the undercounter 8kg. For when space matters.

The Wascomat 8kg range combines professional washing and drying in a compact solution, ideal for laundry environments where space is limited. A truly undercounter range, it delivers reliable performance, intuitive controls and efficient operation, all built to help you make the most of every square meter.

The H8-8 washer and D8-8 dryer work seamlessly together, with energy-saving technologies and optional stacking kits providing a flexible, space-saving laundry solution without compromising on results.

Built to last, the 8kg washer and dryer are tested to 40,000 cycles.

H8-8 | 8kg capacity compact washer.

The H8-8 washer delivers professional performance with high-spin extraction, touchscreen controls and efficient water use.

Features and benefits

- Fully personalized 4.3" touch panel: UniVibe gives the operator an easy and smooth experience and you will have all the possibilities to adapt for your business requirements
- 600G High-spin extraction for lowest water and energy consumption
- Five compartment detergent box for manual dosing of powder or liquid detergent
- Door with gasket and strong hinges built for heavy duty operation
- Stainless and galvanized steel in all vital parts for high degree of rust protection

600g high-spin extraction

53l ECO water consumption

Compact, stackable design

4.3" touchscreen controls

New D8-8 | 8kg capacity compact dryer.

The D8-8 dryer delivers reliable drying performance with Residual Moisture Control, EcoPower technology and flexible heating options.

Features and benefits

- Axial airflow and tight construction gives low energy consumption
- High productivity – 2 full loads per hour
- Large door opening for easy loading and unloading
- Easy and ergonomic access to the lint screen
- Excellent water evaporation efficiency per kWh
- The coin version with EcoPower to avoid over drying of the garments and get a lower energy consumption
- Fully personalized 4.3" touch panel: UniVibe gives the operator an easy and smooth experience, fully adaptable to business requirements

Gas, heat pump or vented

Compact, stackable design

Residual moisture control

EcoPower energy savings

Washers.

8kg - 120kg

Intelligent control*

- Flexible and customizable
- Up to 35 preset programs and 15 programmable
- Large, clear display in 18 languages with real-time clock
- Create new programs in your PC with the Laundry Program Manager, then transfer them to machines via USB port
- 5 liquid detergent signals
- Process monitoring via a central information system

Engineered for excellence

Whatever your needs, Wascomat provides professional laundry solutions engineered for exceptional performance, efficiency and lasting reliability.

The Endurance Line consists of 3 main categories: H (high spin), S (super spin) and N (normal spin).

*Not applicable to 8kg.

Built for long working lives.

Soft mount for freestanding or solid mount for fixed to floor installation.

Stainless front panel for protection against rust and corrosion.

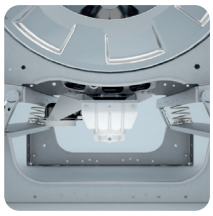

High-spin extraction. Lower running costs.

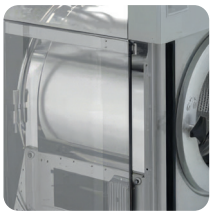

Best-in-class drum perforation ensures removal of all dirt particles for maximum laundry care.

Keeping the right time at a high spin extraction (G-force 450) for maximum de-watering, saving time and energy.

Drain valve positioned and connected directly on the outer drum, no dead space for water, less water to heat, less detergent required.

Automatic load weighing adjusts water and energy use to match the load, reducing consumption on partial loads.

(Available on general programs).

Intelligent controls. Straightforward operation.

Intelligent controls for simple cycle management and monitoring.

USB connection on the front for easy access and faster service.

Flexible controls and easy to read graphic display on larger models.

Ergonomic door with integrated locking mechanism.

Supports manual and automatic detergent dosing.

Dryers.

8kg - 67kg

Intelligent control*

- Flexible and customizable
- Up to 55 preset programs and 15 programmable
- Large, clear display in up to 18 languages with real-time clock
- Machines can be connected to a network to monitor all operating costs and program and consumption data

Quality in every detail

Wascomat tumble dryers are designed for quick and simple installation. Only one external connection for electricity, gas and exhaust is required.

*Not applicable to 8kg.

Efficient drying. Lower energy use.

King size lifter and reversing drum for optimal drying results.

Optional residual moisture control sensors continuously measure and stop drying at desired moisture level.

Optimized drum speed for better results, shorter drying cycle and energy saving.

Smart coin shop drying set up for a higher energy saving, no risk of over-drying, shrinking or damaging garments.

Built for working lives.

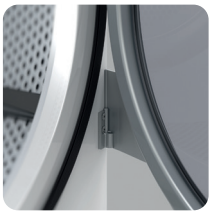

Galvanized panels* to protect against rust and corrosion

* stainless steel as optional

Support rollers for increased drum stability and noise reduction.

Sturdy door switch and door gasket for greater seal.

Extremely powerful fans for a more flexible installation.

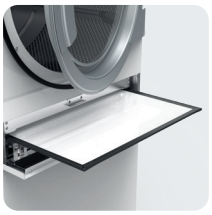

SKF bearings and robust suspension for long-term reliability.

Easy to operate.

Intelligent controls for simple cycle management.

Easy-clean lint filter reduces maintenance.

Large ergonomic door for easy loading and unloading.

USB connection on the front for easy access and faster service.

Optional top exhaust for easier servicing and space optimization.

Built without compromise.

Ironers.

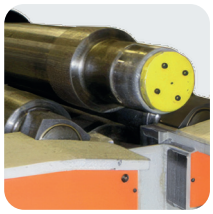

Digital interface

- Unique 3-button digital display with 2 lanes information
- Speed, temperature and item counter are immediately available in the screen
- The navigation is intuitive and user friendly (full menu-guided setup)
- This interface has a service mode to support easy maintenance and service

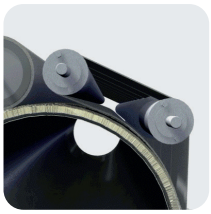

Technology that makes a difference

Designed with safety and ergonomics in mind, the flatwork ironer is easy to operate, with connections required for electricity, gas and exhaust.

Built for working lives.

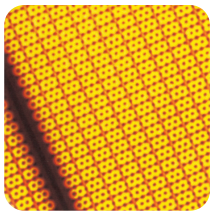

Home made cylinder in stainless steel to optimise the heat transfer and ensure long working live.

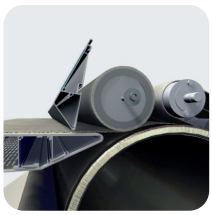

Durable ironing belts made of Nomex® to withstand temperatures above 220°C.

Fast evaporation and delivery.

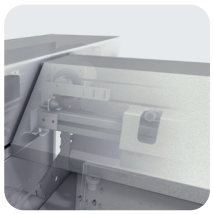

Maintenance free patented ceramic gas burner to minimize downtimes. 20% more efficient than regular blue flame burners.

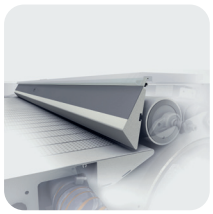

Pressure roll to ensure an optimal ironing result.

Safe operation.

Fully encased machine for maximum workplace safety and energy saving.

Finger guard protection to provide additional security for operators.

Easy access to all parts for easy maintenance.

Customer care.

Focusing on what matters.

Built for support that lasts.

Good products come from understanding how they are used in the real world. Drawing on feedback from customers and service teams worldwide, we continue to refine our machines to deliver dependable performance, practical operation and long-term reliability.

Built on practical advice.

Our team works directly with customers to understand their requirements and recommend the right solution. From initial planning through to installation and ongoing support, we help operators choose equipment that fits their needs and delivers long-term performance.

Built to keep improving.

Getting the best results start with understanding how equipment is used. Our training courses provide practical guidance on machine operation and laundry processes, helping operators improve efficiency, reduce consumption and maintain consistent results.

Accessories for simpler daily operation.

The right accessories help make everyday operation simpler. From installation and workflow improvements to maintenance and machine performance, Wascomat accessories are designed to support the way you work and help you get more from your equipment.

Refer to Product Data Sheets for the complete list of accessories.

Dealer benefits.

Discover the advantages of partnering with Wascomat.

Designed to maximize returns

High uptime and durable construction help customers achieve a stronger return on investment.

Built on reliability

Engineered for continuous commercial use, giving customers equipment they can depend on.

Solutions for every sector

A complete range of commercial laundry solutions for self-service, hospitality, healthcare and more.

Energy-efficient performance

Technology that helps reduce water and energy use, lowering running costs.

Expert support

Technical expertise and ongoing support to help you win business and build lasting customer relationships.

Quality that sells

Premium build quality and intuitive controls make Wascomat an easy choice for customers.

wascomat
H7-130

Built to work and built to last.

At Wascomat, durability is more than a specification, it is a commitment. Decades of engineering expertise and manufacturing experience enable us to build robust, high-performance laundry equipment designed to withstand the demands of commercial operation.

From our heavy-duty riveted machine frames to every carefully selected component, each machine is engineered for exceptional reliability and longevity. Advanced intelligent software further enhances washing and drying performance, optimizing efficiency while reducing wear and extending machine life.

The result is laundry equipment that delivers outstanding performance, cycle after cycle, year after year.
