

WASHER & DRYERS

 **wascomat**

PROFESSIONAL LAUNDRY

DURABILITY, ROBUSTNESS AND TROUBLE-FREE OPERATION

It goes without saying that customers expect trouble free operation regardless of whether the machines are installed in the best maintained installations or the toughest 24h open selfservice laundry.

That's the reason why Wascomat machines are built to last 30,000 cycles. With 70 years of experience we have knowledge and skills to produce high quality machines in highly technological factories.

Not only, we have also developed intelligent software which increases the performance and extends the machine's lifetime. Wascomat machines are Built to Last!

BUILT TO LAST SINCE 1955

HIGH PERFORMANCE LINE

Wascomat laundry equipment is designed for **reliability, low water** and **energy consumption, long lifetime** and **low running costs**.

Wascomat high performance washers and dryers are the right solutions for in-house laundry operations from hotel and hospital laundry to nursing homes, long-term care facilities, salon laundry, veterinarians, restaurants, schools, prisons, firehouses, and all other business facilities that need commercial laundry equipment as well as any Laundrette business.

Wascomat washers are designed to lower water and energy consumption, and provide trouble-free operation in demanding laundry environments, year after year.

Wascomat dryers are precision-engineered for **efficiency, ease of use,** and **superior drying results**. They also feature the optimal combination of gas consumption and airflow to provide the fastest drying and lowest energy use.

6 KG > 120 KG

INTELLIGENT CONTROL

- > Flexible and customisable
- > Up to 35 preset programs and 15 programmable
- > Large, clear display in 18 languages with Real-time clock
- > Create new programs in your PC with the Laundry Program Manager, then transfer them to machines via USB port
- > 5 liquid detergent signals
- > Process monitoring via a central Information System

PERFECTION THROUGHOUT

An insight into the origins of washing.

Whatever your needs, Wascomat presents a wide range of products offering the perfect solution for you.

The range consists of 3 main categories: H (high spin), S (super spin), and N (normal spin).

ROBUST CONSTRUCTION FOR EXTENDED LIFETIME

Soft or solid
mounted for
different needs.

Stainless
front panel
for protection
against rust and
corrosion.

BEST-IN-CLASS DEWATERING FOR LOWER OPERATIONAL COSTS

Best-in-class
drum perforation
ensures removal
of all dirt particles
for maximum
laundry care

Keeping the right
time at a high spin
extraction (G-force
450) for maximum
de-watering, thus
saving time and
energy

Drain valve
positioned and
connected directly
on the outer drum,
no "dead" space for
water, less water to
heat, less detergent
required

The machine weighs the linen
and adjusts the amount of water
and energy according to the load.
This leads to considerable
savings in case the machine
is not fully loaded.
(Available on general programs)

EASY TO USE THANKS TO THE INTELLIGENT CONTROL

Intelligent control
to manage
and monitor the
washing cycles,
easy and intuitive

USB connection
on the front for
easy access and
faster service

Optimal
ergonomic door
opening and
handle with door
lock mechanism

Manual and
automatic dosing
for connection
to any detergent
system

Flexible Control
Easy to read
graphic display on
larger models

INTELLIGENT CONTROL

- > Flexible and customisable
- > Up to 55 preset programs and 15 programmable
- > Large, clear display in up to 18 languages with Realtime clock
- > Machines can be connected to a network to monitor all operating costs and program & consumption data

QUALITY IN EVERY DETAIL

Wascomat tumble dryers are designed for quick and simple installation. Only one external connection for electricity, gas and exhaust is required.

HEAVY-DUTY CONSTRUCTION

Galvanized panels* to protect against rust and corrosion

* stainless steel as optional

Support rollers for increased drum stability and noise reduction

Robust door switch and door gasket for an impeccable seal

Extremely powerful fans for a more flexible installation

Double-sealed SKF bearings and belt drive with sturdy suspension for a longer lifetime even in difficult installations

HIGH PRODUCTIVITY WITH BEST EVAPORATION

King size lifter and reversing drum for optimal drying results

Optional residual moisture control sensors continuously measure and stop drying at a desired moisture level

Optimized drum speed for better results, shorter drying cycle and energy saving

Smart coin shop drying set up for a higher energy saving, no risk of over-drying, shrinking or damaging garments

EASY TO OPERATE

Intelligent control to manage and monitor the washing cycles easily and intuitively

Easy cleaning of the large, durable and ergonomic lint filter minimizes maintenance

Optimal and ergonomic large door opening for easy loading and unloading

USB connection on the front for easy access and faster service

Optional exhaust on top for better serviceability and optimization of space

CUSTOMER CARE & ACCESSORIES

Choose the solution that suits you best

BEFORE AND AFTER SALES, TRUST AN EXPERT

Listening and collaboration: these are two key words for us. Our engineers collaborate with our customers and technicians to define exactly what the features will be of an ever more reliable and easy-to-use product.

OUR COLLABORATORS ARE CONSULTANTS FIRST AND FOREMOST

Our consultants can recommend the best machine, with the most services and which best adjusts to the client's work project specifications. Our after-sales service has an extensive presence and is fast and efficient.

OUR COURSES HELP YOU DISCOVER THE FULL POTENTIAL OF OUR MACHINES

Our courses are conducted by professionals for professionals for two reasons: to provide operators with updates on laundry process techniques and more detailed information on our machines so they can produce more and consume less.

SOME ACCESSORIES TO SIMPLIFY YOUR DAILY WORK
