

Imagine...

To be able to offer excellent cleaning results in a truly sustainable way

Line 6000
lagoon® Advanced Care

lagoon® Advanced Care brings added value

Say goodbye to solvent-based cleaning thanks to lagoon® Advanced Care, your truly green alternative, with a fast and performing process and a quick return of your investment.

Sustainable and eco-friendly

A truly green approach for garment cleaning, cleaning with none of the disadvantages of PERC and other solvents, which can be dangerous to staff and environment.

Delicate on delicates

Gentle on fine textiles and wools labelled dry-clean only, as there is less mechanical action. Woolmark approved.

Dry-to-Dry in 1 hour

Smart detergents and processes mean garments are fully dried in the dryer - no hang-drying required.

Keep customers coming back

Outstanding results for garments of every type thanks to smart detergents and dedicated programs.

Rapid return on investment

With a better loading factor, less prespotting, easier finishing and faster process times.

Absolute comfort, unlimited performance

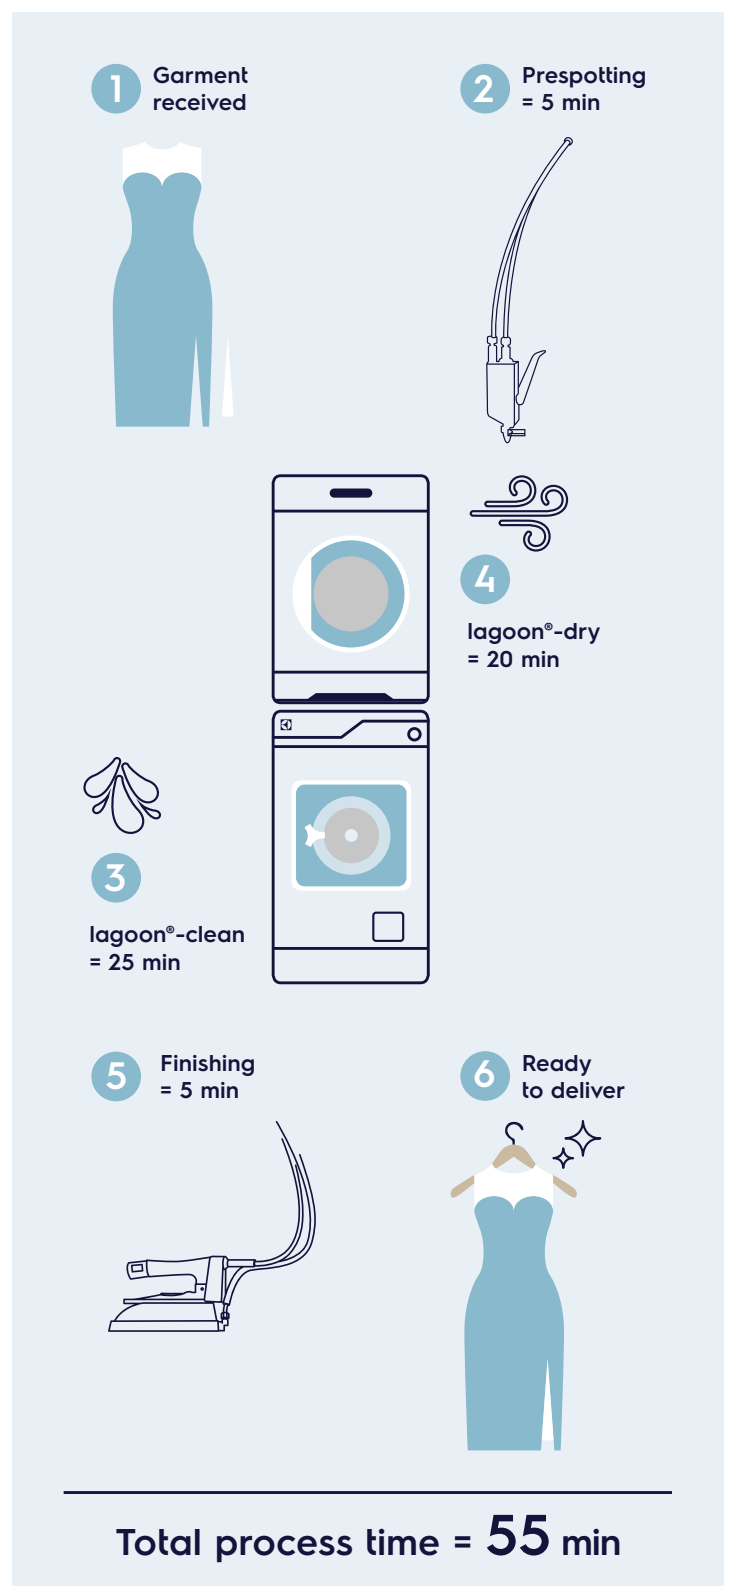

Power up your business
by choosing lagoon®
Advanced Care, the
ultimate trend in
garments cleaning.

Give your customers only the best

Are you already cleaning delicate garments and you are looking for a green alternative to solvents? Are you dissatisfied with the existing technologies and you are looking for the one that can bring your business a step further?

Look no further than lagoon®
Advanced Care, the only truly
green alternative to solvents
to handle delicate garments.

lagoon®

Endorsed by experts

The Hohenstein Institute has conducted comparative tests on the effects of both lagoon® Advanced Care and solvent cleaning on delicate garments, in laboratory condition. After more than 10 cleaning cycles, the tests have shown equal or comparable results for both technologies, in terms of textile wear, dimensional change and color loss. Test results available upon request.

The wool programmes on the lagoon® wet-cleaning system have been approved by The Woolmark Company since 2004 for cleaning Woolmark garments labelled as dry-clean only. In UK, Eire, Hong Kong and India the Woolmark trade mark is a Certification trade mark.

Small footprint great results

Iagoon® Advanced Care Essential Set: the perfect couple to give you full control and easy operation. A real plug & play system you can install anywhere. Single phase solutions available.

80 pieces
of fully processed garments*
per day in less than 0,5 m²

Gain control

Large door

Full see-through tumble dryer door, provides absolute visibility of garments flow.

Perfect drying

Optimal air flow and accurate moisture measuring assure perfect drying results.

Gain comfort

New program library

New comprehensive program library. Dedicated programs for wools, silks, mixed fibers. Gentle 40 program for delicate washables.

New control panel positioning

Most ergonomic position of control panels, assures easy reach and selection.

Unique hydraulic action

75% loading factor and highly effective cleaning of all delicates, thanks to unique ProV'tex hydraulic action, substituting traditional mechanical action.

*Garments include jackets, trousers, skirts, shirts and other small pieces. Large items as coats and duvet are not included.

A unique Spa for all garments
