L05 - Laundry Eco Softener

Descaling agent

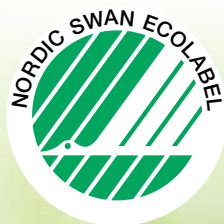

Proud to be green

Ecolabel Certified

The **Eu Ecolabel** helps you identify products and services that have a reduced environmental impact throughout their life cycle.

The **Nordic Swan Ecolabel** is an ISO 14024 type 1 Ecolabelling system and it's a third-party control organ.

Certified expertise to grant you unparalleled performances and results everyday

Automatic dosing of detergents is your best ally when it comes to real savings

Intelligent Dosing feature comes as a standard with Clarus Vibe models, automatically delivering the right amount of detergents according to the weight of the linen inside the drum. It operates in perfect combination with our detergent dosing systems.

MULTISAVE

Connect up to 7 washing machines with just 1 unit!

Less maintenance and installation costs
Low running costs, thanks to a more accurate control of consumptions

Quality & Reliability

Specific for

JETSAVE

The **JETSAVE options** use venturi-based, water-powered pumps that require less maintenance because there are no moving parts or squeeze tubes to replace. Dosage is reliable and installation is sleek and tidy thanks to the built-in flush manifold.

Specific for 

DOSAVE

DOSAVE is a peristaltic based technology, designed for easy installation, easy programming and maximum savings. It requires more maintenance compared to JETSAVE.

Specific for 

ED (Efficient Dosing)

For all **CompassPro** models, the Efficient Dosing will be your accountable partner, making sure that only **the right amount of detergents will be used at each cycle, providing remarkable savings.**

Specific for 

Detergent Storage is a must-have solution

to keep your laundry room organized and safe, giving the added value of being able to hold not only the detergent canisters but (in some models) also the pumps and dosing system.

Products	Detergent Storage AHL	Detergent Storage OPL	Detergent Storage	Detergent Base
Model Name	DS6-3P	DS6-6P	DS6-3	DS6-Base
Dimention (WxDxH,mm)	800x400x1925	800x650x1925	800x400x1200	800x650X70
Description	Detergent storage where 3 units of 20 liters detergent canisters can be stored at the bottom and multiple Dosing pumps can be hanging on the rear plates.	Detergent storage where 6 units of 20 liters detergent canisters can be stored at the bottom and multiple Dosing pumps can be hanging on the rear plates.	Detergent storage where 3 units of 20 liters detergent canisters can be stored at the bottom, without rack system and rear plates for hanging dosing pumps.	A spill tray stands directly on the floor, where 6 units of 20 liters detergent canisters can be placed side by side in two rows.
