Excellence with the environment in mind

- All our factories are ISO 14001-certified
- All our solutions are designed for low consumption of water, energy, detergents and harmful emissions
- In recent years over 70% of our product features have been updated with the environmental needs of our customers in mind
- Our technology is RoHS and REACH compliant and over 95% recyclable
- Our products are 100% quality tested by experts

Laundry on
the high seas

Generation 7000
ENDLESS POSSIBILITIES

The Company reserves the right to change specifications without notice. Pictures are not contractual.

An even more sustainable Marine laundry

Cargo ships, oil rigs, passenger ships and other marine vessels need to rely on solutions that perform reliably in rough seas.

When you have to ...

- ▶ get clothing and textiles clean and dry in a difficult environment
- ▶ add lifetime to your workwear
- ▶ depend on machines that won't break down
- ▶ handle all fabrics, from delicates to rugged apparel

...we offer you washers and dryers that exceed your expectations.
Meet the **Compact Power**

Reliable

Engineered with fewer parts for **maximum robustness**, proven over **40,000 cycles** in harsher-than-standard sea conditions.

Ease of use

A highly intuitive, ergonomic range engineered for **effortless use** across global marine crews.

High serviceability

Frontal access service and disassemble drum for easy maintenance, also thanks to **modularity** and **reduction in complexity**.

Adapts to your space

Compact size to fit in any limited area. **Stackable washer & dryer** to **double space efficiency** and boost laundry production.

WASHER EXTRACTOR

The laundry ally for you and your staff

Goodbye dirt!

NEW The new way to **enhanced dewatering** (with no lint stuck), **deep cleaning** and **preserving fabric integrity**. With stainless steel drum lifters.

INTELMESH

LINTLESS DESIGN

PATENTED

WIDE 2XGLASS DOOR

DOOR DAMPER

NEW Wide double-glass door to **prevent burning** and **ease loading / unloading operations**

NEW **Door Damper** Keeps the **door open** and **still**

DYNAMIC COUNTERBALANCE INTELLIGENCE

Maximum dewatering for the lowest residual moisture

Real-time unbalance monitoring and G factor adjustment throughout the extraction sequence results in **maximum dewatering**, to shorten drying times, reduce energy consumption and save your tenants time.

FAST LAUNDRY CYCLE

Fast turnaround. Less waiting time. **More laundry done.** Happy tenants and staff at every cruise.

TUMBLE DRYERS

Even more time & energy savings

MOISTURE BALANCE

Automatic switch off once the items have reached the **right level of dryness** (or the one you set). For **protected garments** and **energy savings**

M.E.M.E. Minimum Energy Maximum Efficiency

Save up to 65% in energy with our **patented heat pump** – optimized by the **electronic valve** and **inverter technology** for **maximum drying efficiency**

8%

First dryer in the market with Integrated load intelligence

Small load? No problem!

UNIQUE in the industry

FIRST in the industry

LOAD INTELLIGENCE

ECO PROGRAM

NEW Choose the **EcoProgram** and **Save up to 8% in energy consumption** by knowing the drum load

Universal User Interface & Experience just in one touch

Flexible & user friendly, multiple languages, full program library for an **intuitive experience** and smooth interaction. **Seamlessly across washers and dryers**

PATENTED

Ergonomics at the heart of our design

UNIQUE in the industry

From simplifying daily operations and **reducing physical strain** to **improved serviceability**, our solutions are built to **enhance the user experience** while contributing to a more sustainable future.

Complete Data Access

OnE Connected

With connected machines, you will benefit from **clear sustainability insights**, tracking performance, monitoring energy and water consumption, for efficient, daily operations in the laundry room.
