

Sustainable in every dimension

We reduced the number of components by 60% (reducing CO2 emissions) and innovated the modularity system. For **less complexity, better engineering and faster operations**

60% LESS IS MORE

Excellence with the environment in mind

- The majority of Electrolux Professional Group factories are third-party certified according to ISO (International Organization for Standardization) standards ISO 9001 and ISO 14001, with some sites also certified ISO 5001 and ISO 45001.*
- We are focused on developing innovative and sustainable solutions designed for low water, energy and detergent consumptions and reduced emissions.
- Our products are tailored to human comfort based on ergonomic principles and according to the user’s natural workflow, achieving maximum efficiency with minimum effort. We also perform third-party ergonomic certifications on certain products (ERGOCERT).
- The selection of materials and technologies for our products complies with REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) and RoHS directives (Restriction of Hazardous Substances 2011/65/EU) for the protection of human health and the environment

For businesses that demand maximum results in productivity and cost control

Generation 7000
ENDLESS POSSIBILITIES

The Company reserves the right to change specifications without notice. Pictures are not contractual.

The Compact Power.

Small spaces. Ultimate performance.

The only fully professional small chassis solution, expanding to 7 and 8 kg capacity. Lasting for over 40,000 cycles.

40,000 cycles

to ensure a **long-term investment** that outlasts any alternative in the market, reducing significantly the capital expenditure per wash and dry, and the replacement frequency, providing the **lowest cost per cycle**.

OnE Connected

Ergonomics at the heart of our design

For businesses that demand maximum results in **productivity** and **cost control**

FASTEST DRY-TO-DRY SOLUTION IN THE MARKET
ALSO SAVING ENERGY & TIME IN THE DRYER

Compact size to save space, stack more machines, while multiplying revenues.

GREEN FOOTPRINT

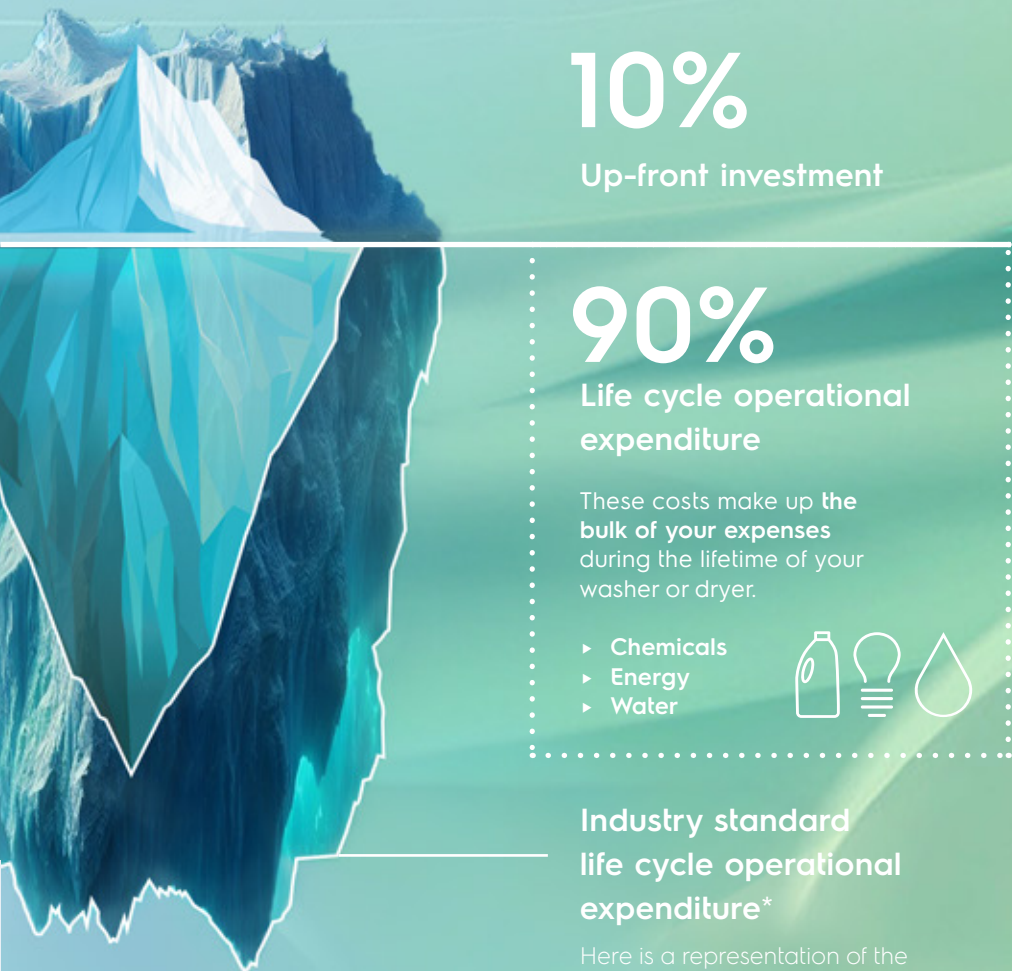

STACKABLE W+D

Look under the surface to see how much you save

When considering the cost of an investment, the up-front expense is just the tip of the iceberg. Operating expenditure accumulate, year after year, and make up the largest share of your expense. Over the long term, **our washers and dryers will cost you much less and make your investment more profitable.**

Our "iceberg" is slim

While other washers and dryers have **extensive lifetime operational expenditure**, we can represent ours with a slimmer iceberg shape because of the savings you will achieve thanks to its **money-saving features** and robust engineering.

A solution that is your business ally

Discover some of the features that make The Compact Power the **fastest dry-to-dry solution** in the market with the lowest operational expenditure (also saving time and energy in the dryer).

Ensuring the **lowest water consumption** and a **smart water flow**

For the **lowest residual moisture** and fastest dry-to-dry in the industry, at the **best performance** possible

less than **40%**
LOWEST RESIDUAL MOISTURE

UNIQUE
in the industry

No guessing: the wash and dry programs follow a perfect equation to **maximize savings** and **optimize the laundry process**

Ergonomics at the heart of our design: to **minimize strains** and **maximize comfort of operations**

UNIQUE
in the industry

PATENTED

Universal User Interface & Experience just in one touch

Flexible & user friendly, multiple languages, full program library for an **intuitive experience** and smooth interaction. **Seamlessly across washers and dryers**

PATENTED

NEW Fast and easy dismantling, with **full access from the front**, even in the stacked version.

PATENTED

The **door is hanging solo** while screwing / unscrewing operations are in action—so it doesn't fall nor need holding

A full-scale professional machine for easy repair
