# Heavy-duty laundry made effortless

When you run a commercial laundry for hotels, restaurants, or other clients with high volumes of linens or uniforms, productivity and savings really matter. Laundry will be perfectly clean and dry in no time so you can keep your business moving and increase your profits.

## When you have to ...

- ▶ move large volumes fast
- ▶ save on water, energy and detergent
- ▶ make your hard-working staff more efficient
- ▶ fit more machines so you can take in more laundry

...we give you washers and dryers that exceed your expectations.

## Ease of use

Highly intuitive interface and ergonomic benefits to reduce strain for a demanding job.

## Saves money

Very quick and cost-efficient to install, with extremely low energy and operating costs over time.

## Full control

The entire laundry process is under your control. Connect your machines and make the most of data on cost, usage, and more.

# Washers. Simply easy, for you and your team

## User-friendly detergent dispenser

The front loaded **detergent dispenser** is placed at the correct height and tilts downward for good visibility. Six color-coded compartments **show you what to pour where**. Removable components make it easy to clean.

## Exceptional savings with Intelligent Dosing

According to the weight load, the precise amount of detergent is added automatically, removing the guesswork and avoiding waste while ensuring good care of fabrics.

## Connected for smarter use

Connected solutions allow remote monitoring, control, and quick updates, so failures and breakdowns can be easily diagnosed.

## An interface sure to please

Flexible touch-screen approach with multiple languages and simple display instructions, for an intuitive experience and smooth interaction.

# Dryers. Better in every way

## Dry more linen in less time

The smaller dryer takes 42 minutes\* to dry 6 kg of laundry. With the larger model you can dry 16 kg in 42 minutes!\*

\*At rated capacity, 100% cotton load at 50% initial moisture dried to 0%.

## New technologies for major savings

With our improved heat pump technology, **you can save more than 60% on energy bills** compared to traditional dryers, while keeping the laundry process quick and efficient so your customers will keep coming back.

## Dry not overdry

**Measures the exact moisture level** throughout the drying process. Saves energy by stopping as soon as clothes are dry, which is especially important for delicate garments.

## Great for all fabrics

**Drum Speed Control** adjusts the free fall of laundry for best results and fastest drying, no matter the fabric.

## Certified Ergonomics

The new range of washers and dryers has passed third party external testing and is **certified to international standards of ergonomics** and human-centered design. These products have earned the prestigious 4-star rating for ergonomics. This means they have been user-tested to make sure your operators will feel less tension and strain, so they—and your business—can thrive.

## Complete Data Access

With connected machines, commercial laundries will benefit from **clear insight into the most efficient operational flow** of the laundry process.
