Marine laundry made effortless

Cargo ships, oil rigs, passenger ships and other marine vessels need to rely on high-performance laundry equipment that's flexible, cost effective, and easy to maintain. Customizable programs will take care of any fabric and any degree of soilage, right there on the open seas.

When you have to ...

- ▶ get clothing and textiles clean and dry in a difficult environment
- ▶ add lifetime to your workwear
- ▶ depend on machines that won't break down
- ▶ handle all fabrics, from delicates to rugged apparel

...we give you washers and dryers that exceed your expectations.

Ease of use

Highly intuitive interface and ergonomic benefits to reduce strain for a demanding job.

Saves money

Very quick and cost-efficient to install, with extremely low energy and operating costs over time.

Adapts to your environment

Customizable programs for any fabric, from upholstery to guest linens to heavily soiled uniforms.

Washers. Simply easy, for you and your crew

User-friendly detergent dispenser

The front loaded **detergent dispenser** is placed at the correct height and tilts downward for good visibility. Six color-coded compartments **show you what to pour where**. Removable components make it easy to clean.

Avoid overloading and underloading

With **Integrated Savings** to measure and display the load in real time, you can avoid overloading and underloading, for optimized productivity. You'll also get the wash results you need and extend the lifetime of your washer.

Exceptional savings with Intelligent Dosing

According to the weight load, the precise amount of detergent is added automatically, removing the guesswork and avoiding waste while ensuring good care of fabrics.

Flexible programs for better care

Copy between 2 different capacities: all parameters of the wash program will be adapted automatically.

Dryers. Better in every way

Dry more in less time

Whether you choose the smaller or the larger model, you'll dry large volumes in surprisingly little time.

New technologies for major savings

With our improved heat pump technology, **you can save more than 60% on energy bills** compared to traditional dryers, without compromising on time and productivity.

Dry not overdry

Measures the exact moisture level throughout the drying process. Saves energy by stopping as soon as laundry is dry, which also protects it and helps it last longer.

Best result with all fabrics

From rugged uniforms to your guests' delicate linens: manually adjust the drum speed for best results and fastest drying.

Certified Ergonomics

The new range of washers and dryers has passed third party external testing and is **certified to international standards of ergonomics** and human-centered design. These products have earned the prestigious 4-star rating for ergonomics. This means they have been user-tested to make sure your operators will feel less tension and strain, so they—and your business—can thrive.

Complete Data Access

With connected machines, marine laundries will benefit from **clear insight into the most efficient operational flow** of the laundry process.
