The laundry room made effortless

When tenants do their laundry, they want a fast and trouble-free experience. What turns a chore into a pleasure is the assurance that they will get **perfectly clean clothes**, enjoy a smooth transition from washer to dryer, and come back to find their laundry **dried to perfection**. That's why you need a partner with expertise and experience – one that knows professional solutions inside and out

When you have to ...

- ▶ run a sustainable laundry room and save on energy costs
- ▶ keep your tenants happy
- ▶ provide a fast, user-friendly experience
- ▶ avoid breakdowns and keep machines running smoothly

...we give you washers and dryers that exceed your expectations.

Ease of use

Highly intuitive interface and ergonomic benefits to reduce strain, including for tenants with disabilities.

Saves money

Very quick and cost-efficient to install, with extremely low energy and operating costs over time.

Adapts to your space

Whether you choose the smaller stackable models or larger size, the entire range has a footprint optimized to save room.

Washers. Simply easy, for you and your tenants

User-friendly detergent dispenser

The color-coded front loaded **detergent dispenser** is designed to make dosing easy and reduce spillage, so your floors stay clean. The dispenser is easy to clean thanks to the removable parts.

Not a drop of water wasted

The **Automatic Savings** feature adapts water intake to the actual load and ensures the right processing time for optimal wash results, helping to lower your costs.

Maximum dewatering with Power Balance

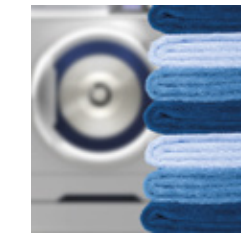

Real-time unbalance monitoring and G factor adjustment throughout the extraction sequence results in **maximum dewatering**, to shorten drying times, reduce energy consumption and save your tenants time.

An interface sure to please

Flexible & user friendly, multiple languages, full program library for an **intuitive experience** and smooth interaction.

Dryers. Better in every way

Dry more in less time

The smaller dryer takes 42 minutes* to dry 6 kg of garments. With the larger models, your tenants can dry 16 kg in 42 minutes!*

*At rated capacity, 100% cotton load at 50% initial moisture dried to 0%.

New technologies for major savings

With our improved heat pump technology, **you can save more than 60% on energy bills** compared to traditional dryers, while keeping the laundry process quick and efficient

Dry not overdry

Measures the exact moisture level throughout the drying process. Saves energy by stopping as soon as laundry is dry.

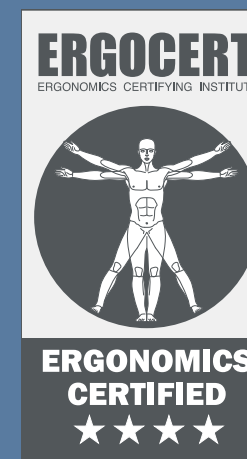

Hassle-free

The dryers are fast and inexpensive to install, require little maintenance, and run independently of external temperature and humidity.

Certified Ergonomics

The new range of washers and dryers has passed third party external testing and is **certified to international standards of ergonomics** and human-centered design. These products have earned the prestigious 4-star rating for ergonomics. This means they have been user-tested to make sure your operators will feel less tension and strain, so they—and your business—can thrive.

Complete Data Access

With connected machines, housing owners and managers will benefit from **clear insight into the most efficient operational flow** of the laundry process.
