Laundry, where
and when
you need it

The Company reserves the right to change specifications without notice. Pictures are not contractual.

On-premises laundry made effortless

It's important to have washers and dryers on hand so you can get things clean on your schedule and in the convenience of your own premises. Reliability, low maintenance and low costs mean you can concentrate on the rest of your job.

When you have to ...

- ▶ clean tough stains without the wait
- ▶ add lifetime to your workwear
- ▶ trust in total hygiene
- ▶ depend on reliable, long-lasting machines

...we give you washers and dryers that exceed your expectations.

Ease of use

Highly intuitive interface and ergonomic benefits to reduce strain for a demanding job.

Saves money

Very quick and cost-efficient to install, with extremely low energy and operating costs over time.

Adapts to your needs

Washers and dryers are stackable and take up surprisingly little room. Choose your program to care for special workwear fabrics, including welded seams and reflective trims.

Washers. Simply easy, for you and your staff

User-friendly detergent dispenser

The front loaded **detergent dispenser** is placed at the correct height and tilts downward for good visibility. Six color-coded compartments **show you what to pour where**. Removable components make it easy to clean.

Avoid overloading and underloading

With **Integrated Savings** to measure and display the load in real time, you can avoid overloading and underloading, for optimized productivity. You'll also get the wash results you need and extend the lifetime of your washer.

Exceptional savings with Intelligent Dosing

According to the weight load, the precise amount of **detergent is added automatically**, removing the guesswork and avoiding waste. Consistent results every time.

Flexible programs for better care

Set your own customizable programs for any type of fabric and get clean, hygienic uniforms, along with data reports for each program you use. Copy between two different capacities: all parameters of the wash program will be **adapted automatically**.

Dryers. Better in every way

Dry more in less time

Whether you choose the smaller or the larger model, you'll dry large volumes in surprisingly little time.

New technologies for major savings

With our improved heat pump technology, **you can save up to 60% on energy bills** compared to traditional dryers, without compromising on time and productivity.

Dry not overdry

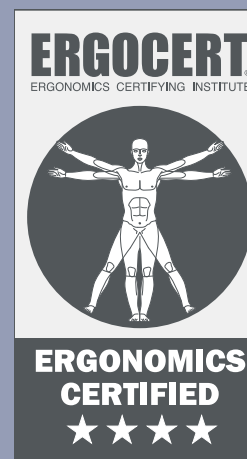

Measures the exact moisture level throughout the drying process. Saves energy by stopping as soon laundry is dry, which also protects it and helps it last longer. Excellent results with any type of fabric.

Easy installation

Install anywhere, even in cramped spaces or where exhaust or ventilation is a challenge.

Certified Ergonomics

The new range of washers and dryers has passed third party external testing and is **certified to international standards of ergonomics** and human-centered design. These products have earned the prestigious 4-star rating for ergonomics. This means they have been user-tested to make sure your operators will feel less tension and strain, so they—and your business—can thrive.

Complete Data Access

With connected machines, on-premises laundry owners and managers will benefit from **clear insight into the most efficient operational flow** of the laundry process.
