The Company reserves the right to change specifications without notice. Pictures are not contractual.

Quicker customer
rotation for
a more profitable
laundromat

High volume turnover made effortless

If you run a self-service laundry, you want people to keep coming back. They will, if you offer short waiting times, great results, and easy-to-use machines. Not only will your business flourish, but you'll enjoy **low running costs, fast customer rotation**, and no downtime thanks to sturdy, sustainable design.

When you have to ...

- ▶ run a profitable self-service laundry
- ▶ keep your customers happy
- ▶ provide a fast, user-friendly experience
- ▶ avoid downtime and keep machines running smoothly

...we give you washers and dryers that exceed your expectations.

Ease of use

Highly intuitive interface and ergonomic benefits to reduce stress, including for customers with disabilities.

Saves money

Very quick and cost-efficient to install, with extremely low energy and operating costs over time.

Adapts to your business

Whether you choose the smaller stackable models or larger sizes, the entire range has a footprint optimized to save room.

Washers. Simply easy, for you and your customers

User-friendly detergent dispenser

The front loaded detergent dispenser is designed to prevent spillage so your floors stay clean, not sticky or slippery. The dispenser itself is also easy to clean thanks to the removable parts.

Not a drop of water wasted

The **Automatic Savings** feature optimizes the amount of water for the actual load and shortens the cycle time, all of which saves you money.

An interface sure to please

Flexible touch-screen approach with multiple languages and simple display instructions, for an intuitive experience and smooth interaction.

Exceptional savings with Intelligent Dosing

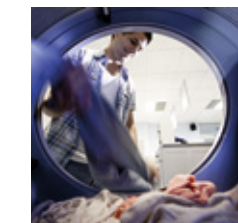

According to the weight load, the precise amount of detergent is added automatically, removing the guesswork and reducing waste while ensuring good care of fabrics.

Dryers. Better in every way

Dry more in less time

Faster drying means quick customer turnover and higher profits for your business.

New technologies for major savings

With our improved heat pump technology, **you can save more than 60% on energy bills** compared to traditional dryers, while keeping the laundry process quick and efficient so your customers will keep coming back.

Dry not overdry

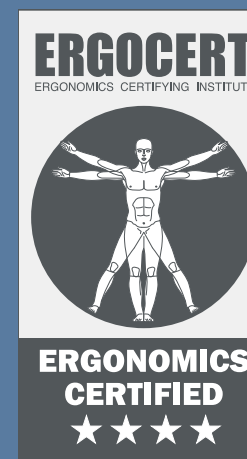

Measures the exact moisture level throughout the drying process and stops as soon as laundry is dry. Customers will remove laundry sooner and free up the dryer for other users.

Hassle-free

The dryers are fast and cost-optimized to install, require little maintenance, and run independently of external temperature and humidity.

Certified Ergonomics

The new range of washers and dryers has passed third party external testing and is **certified to international standards of ergonomics** and human-centered design. These products have earned the prestigious 4-star rating for ergonomics. This means they have been user-tested to make sure your operators will feel less tension and strain, so they—and your business—can thrive.

Complete Data Access

With connected machines, coin-op owners and managers will benefit from **clear insight into the most efficient operational flow** of the laundry process.
