- ▶ Our products are 100% quality tested by experts

Hygiene and
efficiency
for healthcare
laundries

The Company reserves the right to change specifications without notice. Pictures are not contractual.

Impeccable care made effortless

Patient health and safety is a major challenge for hospitals and nursing homes. Healthcare institutions are providers that strive to optimize patient, family, and staff satisfaction by ensuring a well-controlled process of linen hygiene.

When you have to ...

- ▶ keep laundry standards impeccable
- ▶ provide peace of mind to patients and families
- ▶ manage large volumes without overworking your staff
- ▶ maintain a profitable business

...we give you washers and dryers that exceed your expectations.

Ease of use

Certified ergonomic benefits and a simple interface reduce hidden costs like training and sick leave. Operations are comfortable and accessible to all, including the less abled and those with disabilities.

Lets you take charge

The entire laundry process is under your control. Connect your machines and make the most of data on cost, usage, and more.

Full control

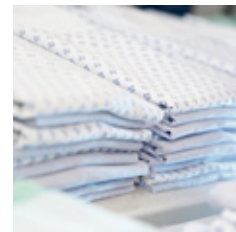

A laundry solution that meets your needs: take action for better hygiene, increased performance, faster speeds, money saved.

Washers. Simply easy, for you and your staff

User-friendly detergent dispenser

The front loaded detergent dispenser is placed at the correct height and tips downward for easy viewing. Six color-coded compartments **show you what to pour where**. Removable components make it easy to clean.

Avoid overloading and underloading

With **Integrated Savings** to measure the load in real time, you won't overload or underload your machine, so you can maximize profits and extend the lifetime of your washer.

Extraction sequence perfectly balanced

Real-time unbalance monitoring and G factor adjustment throughout the extraction sequence results in maximum dewatering, to shorten drying times and get your beds remade fast.

Interactive technology for the best user experience

The new **ClarusVibe** control guarantees a friendly, intuitive experience and smooth interaction for your healthcare employees.

Dryers. Better in every way

Dry more in less time

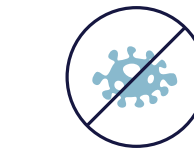

The smaller dryer takes 44 minutes to dry 6 kg of garments. With the larger models, your tenants can dry 16 kg in 42 minutes!*

*for certain fabrics under specific conditions

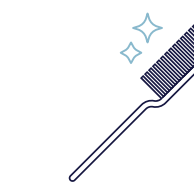

Dry not overdry

Measures the exact moisture level throughout the drying process. Saves energy by stopping as soon as linens are dry, which also protects them and helps them last longer.

Extra hygiene for a sensitive environment

A fully stainless steel option, available for all dryers in the range, can provide an extra level of cleanliness and sanitation.

Maximum comfort

The filter drawer is positioned for easy access and cleaning without the need to bend down. Ergonomy down to the smallest details takes the stress out of a physically demanding job.

Certified Ergonomics

The new range of washers and dryers has passed third party external testing and is **certified to international standards of ergonomics** and human-centered design. These products have earned the prestigious 4-star rating for ergonomics. This means they have been user-tested to make sure your operators will feel less tension and strain, so they—and your business—can thrive.

Complete Data Access

With connected machines, owners and managers of care facilities will benefit from **clear insight into the most efficient operational flow** of the laundry process.
