

Laundry Program Manager – LPM

for Compass Pro, Compass Control, Clarus Control and Clarus TS

Features and benefits

- LPM is a computer software that allows to create programs for the Electrolux Professional washers and dryers in very short time
- Create your own wash or dry programs from your computer using the predefined steps
- Connect to the Compass Pro via the front USB port and administrate your program library: reorganize the program orders, hide some or insert your customized ones
- Graphical interface with easy navigation, settings for each step are accessible in a few clicks
- User interface in English, French, German, Japanese and Swedish. All languages are included in the installation package, you can choose your favorite one during the installation or change afterwards
- Connect to the Electrolux Professional smart card reader (sold separately) to read and write wash programs in the Clarus Control and Clarus TS equipped washers
