

Tumble dryer

TD6-14

Exceptional savings and effortless use

Priority on people

Certified ergonomic design with a human-centered approach for an outstanding user experience

- Lint filter
The horizontal filter drawer is positioned for easy access and cleaning without the need to bend down

Long-term savings

Innovative features to save money and time, and embrace a sustainable lifestyle

- Moisture Balance (optional) helps to stop the drying process at the right time to save on energy costs

Pure control

Monitor your equipment and performance from anywhere, allowing to take action and to improve your business with OnE Connected - the personal assistant for hygiene validation management, process management and revenue management (optional)

Outstanding productivity

Dry more laundry in less time: a game-changing improvement

- Reversing drum minimizes wrinkles and drying time to get an effective and even drying performance

Global Advanced Hygiene

Global Advanced Hygiene program package^I with proven log 6 reduction^{II} disinfection of textiles through the laundry process, fulfilling the criteria of all local approved standards

I. program is available in the standard library of gas and electric heated dryers, excluding products for specific segments where temperature is not controllable

II. log 6 reduction equals to 99,9999% viral infectivity reduction. The efficacy of reduction of SARS-CoV-2 and other pathogens in the process is confirmed by RISE (The Research Institute of Sweden) on the basis of Electrolux Professional laboratory data

Other options

- Insulated glass door keeps the door cool on the outside and heat on the inside, so the room temperature is not affected
- Lagoon Advanced Care
- Drum Speed Control adjusts the movement of the drum to help garments move correctly for a faster drying process
- Door, front and side panels are available in stainless steel
- Connectable to booking-/payment system or coin meter
- Adaptive Fan Control - The Adaptive Fan Control adjusts the fan speed automatically to keep air flowing efficiently which will save energy and help to optimize the drying time. (Only available on electric heated machines)
- High altitude kit for gas heated tumble dryers (>610 m)

Main specifications		TD6-14				
Rated capacity, filling factor 1:18	kg / lb	14.2 / 31.3				
Rated capacity, filling factor 1:22	kg / lb	11.6 / 25.6				
Drum, volume	litre	255				
Drum, diameter	ø mm	755				
Heating alternatives:						
EI	kW	6.0 / 9.0 / 13.5				
Gas	kW / BTU/h	13.5 / 46000				
Steam at 700 kPa	kW	15.0				
Consumption data ¹		EI 6.0 kW	EI 9.0 kW	EI 13.5. kW	Gas	Steam
Total time	Min	50	35.6	25.6	27.9	27.1
Energy consumption	kWh	5.5	5.7	5.8	6.5	6.8
Evaporation	g/min	115	163	226	208	214
Energy water evaporation	kWh/l	0.96	0.99	1.00	1.12	1.17

1. At rated capacity 1:22, 100% cotton load at 50% initial moisture dried to 0%.

Produced according to ISO 9001 and ISO 14001.

Certified with CB certificate for Low Voltage Directive and S-mark according to the Machinery Directive. Protection class IP X4D.

Electrical connections					
Heating alternative	Main voltage	Hz	Heating power kW	Total power kW	Recommended fuse A
Electric heated machines	220-240V 1~	50/60	6.0	7.0	32
	220-230V 3~	50/60	9.0/13.5	10.0/14.5	32/50

1. Operating panel 2. Door opening, ø 580 mm 3. Electrical connection on gas heated machines 4. Gas connection / Electrical connection on electrical heated machines 5. Exhaust connection 6. Condensate connection 7. Steam connection		

1. The default gas appliances are built to run on either GNH or LPG gas where shall be installed at not over than 610 m (2001 ft) high altitude otherwise a kit for high altitude must be installed to the machine. For the kit No. please refer to the spare parts list.

2. Sound power levels measured according to ISO 60704.

3. Average data. Crated weight/shipping volume depends on configuration. Please contact logistics for exact measures.

Silver grey and dark blue color samples can be ordered on part number 472998313.
