Tumble dryer

## Exceptional savings and effortless use

## Priority on people

Certified ergonomic design with a human-centered approach for an outstanding user experience

- Lint filter

The horizontal filter drawer is positioned for easy access and cleaning without the need to bend down

- Large door opening for easy loading and unloading
- Easy access to vital parts from front and rear for simple servicing

## Long-term savings

Innovative features to save money and time, and embrace a sustainable lifestyle with
excellent water evaporation efficiency per kWh

- Moisture Balance (optional) helps to stop the drying process at the right time to save on energy costs

## Pure control

Monitor your equipment and performance from anywhere, allowing to take action and to improve your business with OnE Laundry - the personal assistant for hygiene validation management, process management and revenue management (optional)

## Outstanding productivity

Dry more laundry in less time: a game-changing improvement

- Reversing drum minimizes wrinkles and drying time to get an effective and even drying performance with 2 full loads per hour

## Global Advanced Hygiene

Global Advanced Hygiene program package' with proven log 6 reduction" disinfection of textiles through the laundry process, fulfilling the criteria of all local approved standards
I. program is available in the standard library of gas and electric heated dryers, excluding products for specific segments where temperature is not controllable
II. $\log 6$ reduction equals to $99,9999 \%$ viral infectivity reduction. The efficacy of reduction of SARS-CoV- 2 and other pathogens in the process is confirmed by RISE (The Research Institute of Sweden) on the basis of Electrolux Professional laboratory data

## Other options

- Connectable to booking-/payment system or coin meter
- Stainless steel drum, Stainless steel front
- Fresh air intake
- Exhaust on top (Top evacuation is not available on steam heated tumble dryers)
- High altitude kit for gas heated tumble dryers

| Main specifications |  | TD6-16 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Rated capacity, filling factor 1:18 | kg / lb | 16.1/35.5 |  |  |  |
| Rated capacity, filling factor 1:22 | kg / lb | 13.2 / 29.1 |  |  |  |

| Energy water evaporation | kWh/l | 0.96 | 0.97 | 1.06 | 1.37 |

1. At rated capacity $1: 22,100 \%$ cotton load at $50 \%$ initial moisture dried to $0 \%$.

Produced according to ISO 9001 and ISO 14001.
Certified with CB certificate for Low Voltage Directive and S-mark according to the Machinery Directive. Protection class IP X4D.

1. The default gas appliances are built to run on either GNH or LPG gas where shall be installed at not over than 610 m (2001 ft) high altitude otherwise a kit for high altitude must be installed to the machine. For the kit No. please refer to the spare parts list.
2. Sound power levels measured according to ISO 60704
3. Average data. Crated weight/shipping volume depends on configuration. Please contact logistics for exact measures

Silver grey and dark blue color samples can be ordered on part number 472998313.
