# Operating instructions for myPRO Dryers

## Instruction

1

Choose program

2

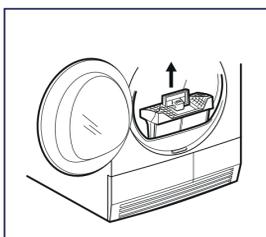

Add program combination optionally and/or push the ► button to start programme

3

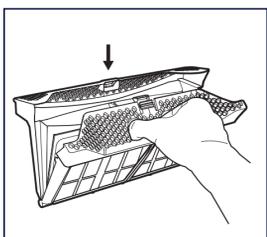

Drying process is completed when acoustic signal appears

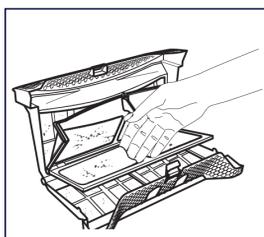

## Cleaning filter

Open the door. Pull the filter up.

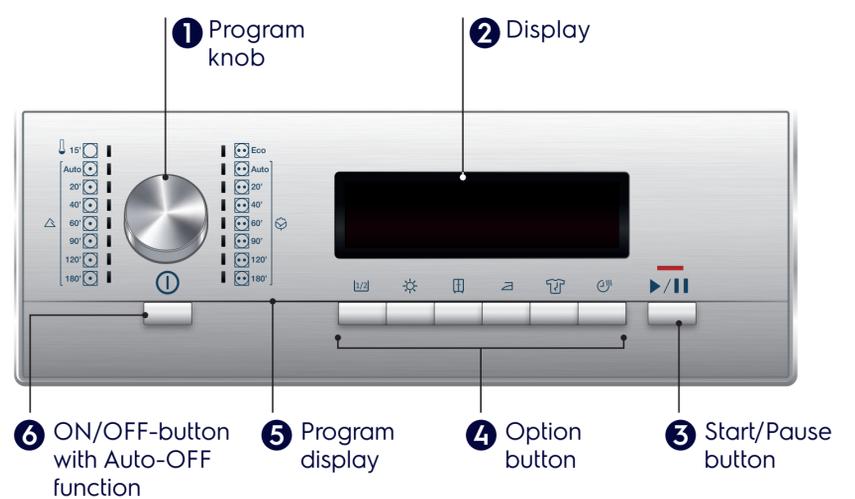

Push the hook to open the filter.

Gather lint with your hand from the internal parts of the filter. Throw the lint in the dustbin.

If necessary, remove lint from the filter socket and gasket. You can use a vacuum cleaner. Place the filter back inside the filter socket.

## Control panel
