4JUICES

Ref: 563041
(4JUICES)

Post-mix juice dispenser, backlit, with 4 flavors, refrigerant gas R134

General Features

4JUICES is a professional equipment ideal to dispense chilled beverages prepared starting from concentrated juice.

4JUICES dispenses up to 4 different drinks and it is equipped with 4 containers each with a capacity of 4 litres of concentrated juice. It is possible upon request to have a prearrangement for bag-in-box connection and the auto-supply water kit.

The machine guarantees high performance levels. The cooling system with pressure-sealed insulated tank assures that the juice temperature doesn't change even in case of continuous dispenses. The water level in the tank is automatically restored after every dispense.

The juice/water dilution ratio is adjustable.

4JUICES has 2 dispensing modes: based on pre-set doses (glass-full or jug-full, maximum height 25 cm) or continuous service with push control.

The unit is provided with 3/4 inch connection pipe for water inlet.
