

I-PRO SLUSH DISPENSER, 3 INSULATED 2.9 G. BOWLS, ELECTRONIC, WITH LIGHTED PANEL

I-PRO3EL

Ref560537
(I-PRO3EL)

I-PRO 3E with lighted panel, (2) 2.9 gallon insulated bowls, Electronic control and timer, black finish - Refrigerant R449A

General Features

I-PRO 3 ELECTRONIC with lighted panel is a versatile slush machine with (3) 2.9 gallon (11L) I-Tank insulated bowls electronic control, and LED-lighted front panel. Refrigerant R449A. I-PRO Electronic is a real technologic wonder designed for performance. It has the I-Tank insulated tank as standard. The look is modern and eye-catching, thanks to the LED-light system that illuminates the product inside the tank, and thanks to the LED-light front panel. The shape of the bowls allows a natural mixing process to ensure an optimum consistency of the product. I-PRO ELECTRONIC helps to save energy and reduce CO2 emissions; a stand-by mode is automatically activated when the product reaches the right consistency. The machine can be programmed daily or weekly. Bowls work independently so it's easy to dispense different products at the same time such as slushies, milkshakes, frozen drinks and frozen cocktails/mocktails. I-PRO is an ideal slush machine for bars, amusement parks, multiplex, fast food chains, kiosks, restaurants, water parks and much more.

CRATHCO

I-PRO SLUSH DISPENSER, 3 INSULATED 2.9 G. BOWLS, ELECTRONIC, WITH LIGHTED PANEL

Specifications

- I-PRO is an ideal slush machine for bars, amusement parks, motorway restaurants, fast food chains, kiosks, restaurants, water parks and much more.
- I-PRO ELECTRONIC is equipped with an integrated diagnostic system which signals any problems directly on the display.
- The I-PRO ELECTRONIC is a professional slush machine automatically switches from "production" mode to "stand-by" mode when it reaches the selected product consistency, guaranteeing energy savings and a reduction in CO2 emissions.

Construction

- The patented I-Tank insulated bowl reduces the impact of ambient temperature on the product, improving its cooling efficiency and guaranteeing energy and cost savings.
- The LED backlit frontal panel gives maximum visibility to the equipment.
- The electronic keypad allows you to program the slush machine daily or weekly.
- Optional Autofill Lid System available: for the automatic filling of the tanks
- Versatile slush machine with three (3) 2.9 gallon/11L I-Tank insulated bowls
- Bowls work independently, allowing operations to dispense different product at the same time, including: slushies, milkshakes, cold drinks and/or frozen cocktails

I-PRO SLUSH DISPENSER, 3 INSULATED 2.9 G. BOWLS, ELECTRONIC, WITH LIGHTED PANEL

Electric

Supply voltage:	115 V / 1 ph / 60 Hz
Electrical power max.:	1.1 kW
Current consumption:	12 Amps
Plug type:	USA NEMA 5-15P

Key Information:

Number of bowls:	3
Control board:	Electronic
Cooling system:	AIR
Bowl's capacity:	2.9 gal
Dimensions, Width:	23 5/8"
Dimensions, Depth:	22 13/16"
Dimensions, Height:	34 1/4"
Net weight:	179 lb

Refrigeration Data

Refrigerant gas:	R449a
