600110 (DTRSC)

Vegetable slicer, 1 speed 340 rpm, 370 W. Lever operated hopper in polished cast aluminum

Short Form Specification

Item No.

Universal vegetable preparation machine for 80 different types of cuts. Plastic casing. Removable cover and feed arm in polished cast aluminium with incorporated magnetic safety device which only allows the cutter to operate if the hopper is closed. No volt release system. Self braking motor.

Main Features

- Base inclined at 20° to provide easy loading and unloading.
- Plate speed at 360 RPM for precise cutting, slicing and dicing.
- Complete and wide selection of blades and grids available (diam. 205 mm).
- Automatic restart of the machine with the halfmoon lever in position.
- Continuous feed model.
- Hopper easily removed for cleaning.
- Magnetic safety system and motor brake. Prevents machine from running when lever swings away or is open.
- Vegetable slicer with slicing, grating, shredding (julienne) as well as dicing and French fries cutting capability.
- Suitable for 100-300 meals for table service and up to 600 meals for catering service.
- Ergonomically design to work frontally and to reduce the working space around the machine.

Construction

- Power: 370 watts.
- Compact and portable design.
- Asynchronous industrial motor with no brushes for high reliability and quiet functioning, stainless steel motor shaft.
- IP55 waterproof ON/OFF buttons, IP24 throughout the entire machine.
