* NOT TRANSLATED *

Main Features

- Ideal for production of chilled specialties: creamy desserts, sorbet, mousses and similar products.
- Works with water or milk/based dried products or with brik mixtures ready to be poured into the bowl.
- Perfect solution for bars, restaurants, cafeterias, coffee shops, hotels and all the other HoReCa operators who desire reliable piece of equipment.
- The machine automatically stops when the cover is opened.
- No more ice or condensation outside the tank with the insulated tank.
- Rounded shapes with stainless steel finishing and white plastics.
- Thanks to the two-bowl configurations, it is possible to simultaneously prepare one or more products.
- The insulated tank guarantees higher cooling efficiency and lower effect of the external temperature on product's preparation and maintenance time reducing condense and draining; it is the best solution in hot climate conditions.
- New design of the screw to adjust the product consistency makes the equipment extremely user-friendly.
- Hybrid control of consistency. The integrated software allows the equipment to self-adjust to ensure that the product has always the same consistency, from the first to the last drop dispensed.
- The bowl of SP ULTRA is also illuminated by LED lights, from above and below, giving the equipment a more attractive look, enhancing the product, increasing its visibility and encouraging impulse purchases.

Construction

- All parts that are in contact with food are in stainless steel or plastic, can be removed for easy cleaning and are dishwasher safe.
- Compact design.
