Short Form Specification

Item No.

High efficiency 21 kW burners. Suitable for natural gas or LPG. Constant starch removal during the cooking process. The tank is pressed in AISI 316-L stainless steel to protect against corrosion. Control panel with gas cock, piezo ignition. Manual water tap. Height adjustable feet in stainless steel. Exterior panels in stainless steel with Scotch Brite finish. One piece pressed work top in 1.5 mm thick stainless steel. Right-angled side edges to allow flush-fitting junction between units.

Main Features

- In addition to cooking pasta, the appliance can be used for noodles of every kind, rice, dumplings and vegetables.
- High efficiency 23 kW burners in stainless steel with flame failure device and optimized combustion, located below the well.
- No electrical connection needed.
- Water basins are seamlessly welded into the top of the appliance.
- Provided with integrated drip zone on which baskets can be placed for draining purposes.
- 24.5 liters water basins.
- Unit to feature skimming zone for starch removal: improved water quality over time.
- Easy-to-use control panel with gas cock and piezo ignition.
- Safety thermostat to avoid operation without water.
- Continuous water filling regulated through a manual water tap.
- Large drain with manual ball-valve for fast emptying of well.
- Automatic lifting system (optional accessory): 200mm wide unit with two stainless steel basket supports, holding one GN 1/2 basket each, to be placed on either or both sides of machine to provide automatic lifting for four small portion baskets (to
- All major compartments located in front of unit for ease of maintenance.
- Unit delivered with four 50 mm legs in stainless steel as standard (all round Stainless steel kick plates as option).

Construction

- All exterior panels in Stainless Steel with Scotch Brite finishing.
- One piece pressed 1.5 mm work top in Stainless steel.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
- Water basin in 316-L Stainless steel.
- IPx4 water protection.

Sustainability

- ESD available as accessory (installed separately): energy saving device uses heat produced by water drained through the overflow to pre-heat tap-in water up to 60°C, for constant water boiling.
- EnergyControl: unique feature for fine power adjustment to control boiling level and optimize energy consumption.

D = Drain
EQ = Equipotential screw
G = Gas connection

WI = Water inlet

Gas

Gas Power: 23 kW

Standard gas delivery: Natural Gas G20 (20mbar)

Gas Type Option: LPG
Gas Inlet: 1/2"

Water:

Side

Top

Total hardness: 5-50 ppm

Drain "D":

Incoming Cold/hot Water

line size: 1/2"

Electrolux Professional recommends the use of treated water, based on testing of specific water conditions. Please refer to user manual for detailed water quality information.

Key Information:

If appliance is set up or next to or against temperature sensitive furniture or similar, a safety gap of approximately 150 mm should be maintained or some form of heat insulation fitted.
