ITEM # _____

MODEL # _____

NAME # _____

SIS # _____

AIA # _____

132948 (NSC1570)

Stainless steel Shelving with
4 solid shelves, 1570mm

Short Form Specification

Item No. _____

Made in stainless steel. The two intermediate shelves are height-adjustable. Load capacity per shelf: average of 150 kg/m², evenly distributed.

Construction

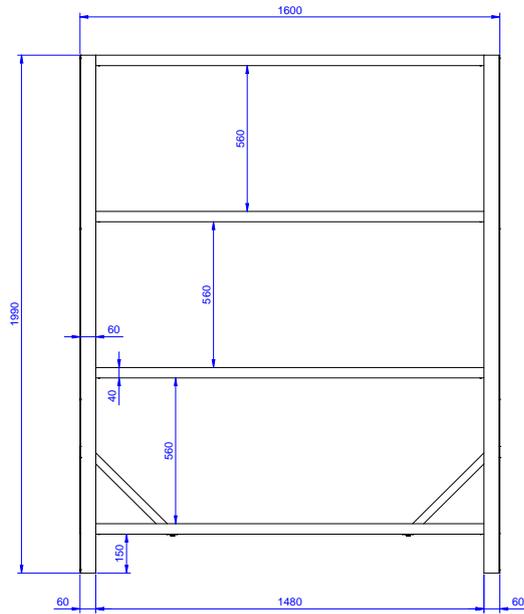

- Designed to bear a maximum total load of 600kg; the load can be positioned at various heights thanks to the shelves.
- Model constructed entirely in stainless steel, with solid stainless steel shelves.
- Heavy duty construction entirely in AISI 304 stainless steel to offer maximum durability.
