Stainless steel Shelving with  
4 solid shelves, 1570mm

**Short Form Specification**

Item No. \_\_\_\_\_

Made in stainless steel. The two intermediate shelves are height-adjustable. Load capacity per shelf: average of 150 kg/m<sup>2</sup>, evenly distributed.

**Construction**

- Designed to bear a maximum total load of 600kg; the load can be positioned at various heights thanks to the shelves.
- Model constructed entirely in stainless steel, with solid stainless steel shelves.
- Heavy duty construction entirely in AISI 304 stainless steel to offer maximum durability.
