

### Drop-In Drop-in refrigerated well, static (5 GN container capacity)

341039 (D10C5)	Drop-in refrigerated well, static (5 GN container capacity)			
Short Form Specification				
Item No.				
cleanability and suitable for serve the food in gastronom 200mm. Food introduced at t temperature according to guarantees evaporators clea control with temperature disp	in flush installation providing improved modern design installations. Designed to m containers with a maximum height of he correct temperature maintains its core Afnor Standards. Automatic defrosting arance and efficient well cooling. Digital blay with precise adjustment (0,1°C). Fully phrols include visible glarms. Wells in 304			

AISI stainless steel with rounded corners to facilitate cleaning operations. The well is also equipped with a drain hole. High-density expanded polyurethane foam with cyclopenthane guarantees excellent well insulation to reduce energy dispersion. R290 refrigerant gas (GWP=3) to reduce environmental impact and increase cooling efficiency. The bottom is equipped with copper tubes to ensure proper cooling, with this system the air touches the cold surface and gets

#### **Main Features**

ITEM #

SIS #

<u>AIA #</u>

<u>MODEL #</u> NAME #

- CB and CE certifed by a third party notified body.
- Designed to be positioned in flush installation providing improved cleanability and suitable for modern design installations.
- Designed to serve the food in gastronorm containers.
- Suitable for GN 1/1 containers with a maximum height of 200 mm.
- Precise temperature control and setting at 0,1°C.
- As standard the product comes with digitally controlled thermostat which is in line of HACCP norms and provides visual alarm as a warning of the increasing or decreasing temperatures.
- Available drop-in dimensions: 1, 2, 3, 4, 5, 6 GN.
- Food introduced at the correct temperature maintains its core temperature according to Afnor Standards.
- Automatic defrosting guarantees evaporators clearance and efficient well cooling.
- Remote version is available.

#### Construction

- Well bottom is inclined to facilitate water drainage.
- Well in 304 AISI stainless steel with rounded corners to facilitate cleaning operations. The well is also equipped with a drain hole.
- Electronic control with temperature display.
- IPx2 water protection.
- The bottom is equipped with copper tubes to ensure proper cooling, with this system the air touches the cold surface and gets cooled.

#### Sustainability

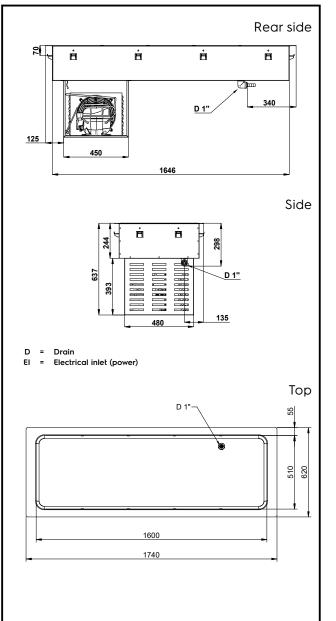

- Hydrocarbon refrigerant gas R290 for the lowest environmental impact (GWP=3) - CFC and HCFC free.
- High-density expanded polyurethane foam with cyclopenthane guarantees excellent well insulation to reduce energy dispersion.

#### APPROVAL:

cooled.

Excelence
