Drop-in Bain-marie, with
one well (2 GN container
capacity) with one A type
overshelf with hot lamps

Short Form Specification

Item No. _____

Designed to serve the food in gastronorm containers. Suitable for GN 1/1 containers with a maximum height of 200 mm. Automatic water refill guarantees constant heating performances and prevent unit breakage. Etched foil heating elements to maximize heat transmission for reduced warm-up times. Well in 304 AISI stainless steel with rounded corners to facilitate cleaning operations. The well is also equipped with a drain hole. 19mm thick rock wool isolated with galvanize sheet guarantees excellent well insulation to reduce energy dispersion. Stylish A type overshelf designed for extra increased visibility on the surface for charming food display. Overshelf equipped with hot halogen lamps.

Main Features

- Electronic overheating protection.
- Designed to serve the food in gastronorm containers.
- Suitable for GN 1/1 containers with a maximum height of 200 mm.
- Automatic water refill guarantees constant heating performances and prevent unit breakage.
- Precise temperature control and setting at 0,1°C .
- As standard the product comes with digitally controlled thermostat which is in line of HACCP norms and provides visual alarm as a warning of the increasing or decreasing temperatures.
- Designed to work with both hot and cold inlet water.
- It is possible to transform one of the GNs to soup dispenser with the available accessory.
- CB and CE certified by a third party notified body.
- Food introduced at the correct temperature maintains its core temperature according to Afnor Standards.
- Stylish A type overshelf designed for extra increased visibility on the surface for charming food display.
- Overshelf equipped with hot halogen lamps.
- Designed to be positioned in flush installation providing improved cleanability and suitable for modern design installations.

Construction

- Heating elements connected to the well bottom include safety thermostat.
- Well bottom is inclined to facilitate water drainage.
- IPx4 water protection.
- Well in 304 AISI stainless steel with rounded corners to facilitate cleaning operations. The well is also equipped with a drain hole.
- Electronic control with temperature display.
- Overshelf in complete AISI 304.
