**391343 (E9KKLBBAMCG)** 

23-It gas Fryer with 1 "V" shaped well (external heating elements), electronic control, programmable, oil recirculation pump, 2 half size baskets and lid included, automatic lifting system for baskets, automatic cooking function, prearranged for advanced filtering system

**391379 (E9KKLQBAMCG)** 

23-It gas Fryer with 1 "V" shaped well (external heating elements), electronic control, programmable, oil recirculation pump, 2 half size baskets and lid included, automatic lifting system for baskets, automatic cooking function, prearranged for advanced filtering system

# **Short Form Specification**

### Item No.

Burners in stainless steel. Suitable for natural gas or LPG attached to the outside of the well. Deep drawn V-Shaped well. The unit is equipped with a programmable electronic control panel. Automatic basket lifting system with automatic cooking mode. Unit predisposed for advanced filtering system. Melting function. Oil drains through a tap into a container positioned under the well; stainless steel filter included.

Height adjustable feet in stainless steel. Exterior panels in stainless steel. Worktop in 20/10, stainless steel. Right-angled side edges eliminate gaps and possible dirt traps between units.

### **Main Features**

- High efficiency 26 kW burners in stainless steel with flame failure device attached to the outside of the well.
- Thermostatic regulation of oil temperature up to a maximum of 190 °C.
- Built-in smart electronic control system to monitor the temperature during frying to guarantee the safety of the process.
- The unit is predisposed for ADVANCED FILTERING SYSTEM with paper filters to remove the smallest food residuals and extend the oil life.
- Unit to feature automatic basket lifting system and AUTOMATIC COOKING mode - Patented (EP3125644B1 and related family).
- Unit able to memorize 5 programs (temperature and time) and 5 extra programs can be customized using the automatic cooking mode allowing to adjust the cooking time automatically according to the load.
- The special design of the control panel offers a better guarantee against oil infiltration.
- Flame failure device.
- Supplied as standard with 2 half size baskets and 1 right side door for cupboard and stainless steel sediment filter.
- Deep drawn V-Shaped well.
- Overheat protection thermostat as standard on all units
- Integrated oil filtering system with a pump for oil circulation.
- All major compartments located in front of unit for ease of maintenance.
- Optional portable oil quality monitoring tool (code 9B8081) for efficient oil management.

# Construction

- Interior of well with rounded corners for ease of cleaning.
- Unit is 930 mm deep to give a larger working surface area.
- All exterior panels in Stainless Steel with Scotch Brite finishing.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
- Unit delivered with four 50 mm legs in stainless steel as standard.
