Undercounter Glasswasher (S), 400x400mm rack, electronic, single skin with pressure boiler, rinse aid pump, 40 r/h, 1 phase, Schuko plug

Short Form Specification

Item No. _____

Undercounter glasswasher small, hot water sanitization type, suitable for up to 400*400mm racks.

Single skin cabinet. Double skin insulated, counter-balance door. Pressed wash tank with round corners. 304 AISI stainless steel construction to include door, external panels, frame, wash tank.

Electronic control with temperature display, to allow on-site customization. Four cycles of 90, 120, 180 and 540 sec. to wash different types of soiled wares. Automatic self-cleaning and draining cycle on board.

Washing performance is ensure by a powerful wash pump, large capacity wash tank, upper rinse and lower wash&rinse spray arms.

Rinse temperature guaranteed by built-in pressure boiler.

The unit shall include wash tank filters in composite material, drain pump and rinse aid dispenser pump.

Electrical characteristics to be 220-240 volts single phase operation.

The unit is equipped with electrical cable and schuko plug.

Main Features

- Maximum capacity of 40 racks per hour.
- Suitable to fit 400*400 mm racks.
- Simple operation control panel with digital display, led info lights; and color-coded main button to launch the washing cycles.
- Featured with n°4 washing cycle, 90 / 120 / 180 / 540 seconds, selectable by the display and customizable on site by service; to wash different kind of crockery.
- Built-in pressure boiler designed to raise incoming water to a guaranteed minimum temperature of 82° C for sanitizing rinse. No external boiler is required.
- Washing system endowed with rotating washing arms, high powered wash pump and large capacity wash tank for professional washing.
- Built-in rinse aid dispenser with automatic chemical loading, for perfect result while minimizing service and maintenance needs.
- Equipped with electrical cable fitting schuko plug.
- Easy service access to all the main components from the front of the appliance, to fast on site operation.
- Wash tank with rounded corners, sloped towards the drain to prevent dirt build up provides fast drainage in only a few minutes and guaranteed water tight solution.

Construction

- Structure, panels, cavity and door in stainless steel to long lasting.
- Insulated double skin counter-balance door construction for silent and smooth operation. Counter-balance mechanism minimizes impact when opening and closing.
- Completely closed on the back by a cover plate.
- Upper and lower screwed washing & rinsing arms and tank filters in composite material; are easy removable from the cavity to easy operation.
- Unit to feature rinse aid dispenser peristaltic pump.

Sustainability

- Clear water consumption of 2 liter/rack, the water of the rinsing phase is recirculated to enable washing.
- Low noise level of 61 db during operations.
- Eco stand-by energy management function, to reduce power usage on inactive period.
