

Warewashing

Single rinse rack type dishwasher, 200 racks/hour, electric, thermal - 50Hz (380-400V)

ITEM # _____

MODEL # _____

NAME # _____

SIS # _____

AIA # _____

520428 (ESR20EL5TL)

Single rinse Rack Type dishwasher, 200 racks/hour, 71 °C thermal label compliant, electric, Left> Right, 380-400V/50Hz/3N (APAC & LA)

520429 (ESR20ER5TL)

Single rinse Rack Type dishwasher, 200 racks/hour, 71 °C thermal label compliant, electric, Right> Left, 380-400V/50Hz/3N (APAC & LA)

Short Form Specification

Item No.

Unit to be Electrolux Professional single rinse rack type dishwasher. Operation direction from left to right or right to left. Single rinse with built-in stabilized pressure valve ensures the right rinsing pressure for optimum hygiene results. Powerful wash pump and specially designed wash spray arms guarantee cleaning. The unit is designed in compliance with NSF ANSI3 standard, thermal label test. Washing is done with water circulating at 65-70°C. Final rinsing is done with clean water heated up to 80-90°C. Low rinse water consumption of 1.5 liter per rack at maximum speed of 200 racks/hour. Double skin insulated door reduce heat and noise with easy internal access.

Main Features

- Adjustable feet for full access underneath the machine for cleaning.
- Easy-to-use control panel.
- The feeding direction can be either left to right or right to left as it's reversible on site.
- All internal components: wash and rinse arms, tank filters, curtains can be easily removed for cleaning.
- Maximum capacity per hour of 200 racks.
- Easy service from front and top.
- The unit is designed in compliance with NSF ANSI3 standard, thermal label test.

Construction

- All main components made in heavy duty anti-corrosive 304 type stainless steel: external front, side panels and internal chambers, wash and rinse arms, doors and rack transportation system.
- Dishwasher structure is held with stainless steel frame to provide long-term sturdiness.
- IPx4 water protection.
- The unit is built on modularity concept for easy to add dryer module on-site.
- Double skin insulated door reduces noise and heat loss.

Sustainability

- Auto-start/stop equipped in different zones ensures that the zone runs only when a rack is passing through it. This reduces water, energy, chemical consumption and noise.
- Single rinse with stabilized pressure valve guarantees rinse water consumption of 1.5 liters/rack regardless of inlet water pressure to ensure low energy, water, detergent and rinse aid consumption.
- Built-in stabilized pressure valve ensures constant pressure throughout the rinsing cycle regardless of inlet water pressure.

Optional Accessories

- Medium hot air blower without door for single rinse Rack Type Dishwasher, electric, 570mm, 4.5kW, 380-400V/50 Hz/3N (APAC & LA) PNC 888000 ☐

Electric

Supply voltage:

520428 (ESR20EL5TL) 380-400 V/3N ph/50 Hz

520429 (ESR20ER5TL) 380-400 V/3N ph/50 Hz

Default Installed Power: 50.5 kW

Wash tank heating elements: 12 kW

Wash pump size: 1.9 kW

Water:

Flow rate of wash pump: 500 l/min

Inlet hot water line size: ISO 3/4" G

Drain line size: 2"

Inlet water supply pressure: 1-6 bar

Inlet water supply temperature
(wash and rinse): 10 - 60°C

The higher the temperature, the faster the warm-up time.
Recommended temperature of 50°C.

Inlet water supply hardness: 0 °fH / 0°dH

Wash tank size: 90 l

Rinse water consumption: 300 l/h

Key Information:

Rinsing temperature: 80-90 °C

Productivity per hour (max
speed): 200racks/3600dishes

1st wash temperature:

External dimensions, Width: 1148 mm

External dimensions, Depth: 800 mm

External dimensions, Height: 1846 mm

Height with door open: 2000 mm

Charging hole size (width): 508 mm

Charging hole size (height): 450 mm

Net weight: 258 kg

Shipping weight: 342.5 kg

Shipping height: 2010 mm

Shipping width: 850 mm

Shipping depth: 1460 mm

Shipping volume: 2.49 m³

Air Emission:

Air flow: 170 m³/h

Air temperature: 45 °C

Air humidity: 100%

Sustainability

Rinse water consumption at max
speed (l/rack):

Warewashing
