Corner drying zone for  
green&clean Multi Rinse  
Rack Type Dishwasher

### Short Form Specification

**Item No.** \_\_\_\_\_

Unit to be Electrolux green&clean corner dryer suitable to be installed with Electrolux green&clean multi-rinse rack type dishwasher. Electrical characteristics to be \_\_ 400V three phase operation. Unit must be installed together with a 90° or 180° dishwasher driven curve. Conveyor system guaranteed by a toothed drive belt connected to the dishwasher. Dryer uses internal and external air to provide good drying result without high energy consumption. Construction in AISI 304 stainless steel. Suitable for any feeding direction of the dishwasher thanks to easy reversibility on-site. Full pre-arrangement to be connected with Electrolux green&clean multi-rinse rack type dishwasher without any modification.

### Main Features

- Unit to be placed between multi-rinse rack type dishwasher and handling system.
- Dryer must always be ordered with a 90° or 180° dishwashing driven curve.
- Drying zone removes most of water from the crockery through a high powered fan that extracts dry air from outside mixing it with the internal air, thus providing dry plates at a temperature cool enough to handle safely.
- Electronically controlled to optimize drying results.
- Full accessibility to the interior of the tunnel and hygienic design to facilitate cleaning.
- IP25 protection against water jets, solid objects and small animals (larger than 6 mm).
- The feeding direction can be either left to right or right to left as it's reversible on site.
- All main components made in heavy duty anti-corrosive 304 type stainless steel: internal chamber, external, front and side panels and rack transportation system.

### Construction

- The chamber is pressed with fully rounded corners without internal pipes and therefore no hidden dirt traps.
- The unit is built on modularity concept to easily connect with multi-rinse rack type dishwasher without any modification including power connection.
