Frozen Granita Dispenser with 2X11 I insulated bowls, electronic control and lighted panel, R290

### **Short Form Specification**

#### Item No.

Frozen granita dispenser with 2 bowls; the ITANK ™ Technology prevents ice accumulation on the outer side of the bowl and the bowl shape allows a natural mixing action to ensure an optimum consistency of the product. Customizable lid merchandiser and back graphic. Electronic control system and touch screen keypad. Front illuminated panel. Sliding drip tray.

#### **Main Features**

- Ideal for the production of slush.
- The ITANK ™ Technology prevents ice accumulation on the outer side of the bowl, reducing condensation and increasing the cooling power of the machine.
- Bowl shape allows a natural mixing action to ensure an optimum consistency of the product.
- Customizable lid merchandiser and back graphic.
- The front illuminated panel provides customers with the opportunity to advertise their product and maximise impulse buying.
- Daily and weekly machine programming functionality.
- The insulated tank guarantees higher cooling efficiency and lower effect of the external temperature on product's preparation and maintenance time reducing condense and draining; it is the best solution in hot climate conditions.

#### Construction

- Electronic control system and touch screen keypad.
- Sliding drip tray.

#### Sustainability

 When the product reaches the right consistency, an automatic stand-by mode activates in order to save energy and reduce CO2 emissions.
