PrecisionBrew Air-heated Shuttle Brewer, single - shuttle to be ordered separately - UK plug

Short Form Specification

Item No.

Single, air-heated PrecisionBrew™ shuttle brewer that brews into 5.7lt shuttle. Shuttles® sensor prevents brewing when server is not in place. Java-tate™ technology inside the shuttles gently stirs the brewed coffee at regular short intervals, keeping the drink perfectly blended, and ensuring a consistent flavor profile. Intuitive, icon-driven touchscreen digital interface simplifies and streamlines brewing and operation. Standard electronic basket lock prevents basket removal during brewing and dripout. Delivered with UK plug.

Main Features

- Reimagined modern design for PrecisionBrew™: single and double virtual sightglass models brew into 5.7 L air-heated Shuttle(s)®.
- Portable Encapsulair Shuttles insulate with air between the internal chambers, maintaining coffee temperature and flavor.
- Java-tate technology inside the shuttles gently stirs the brewed coffee at regular intervals, keeping the coffee perfectly blended, ensuring a consistent flavor profile.
- Customers can see the blending through the virtual sight glass with multi-colored lights, but with no sightglass to clean.
- Sensor prevents brewing when shuttle is not in place.
- Intuitive, icon-driven touchscreen digital interface simplifies and streamlines brewing and operation.

Construction

- Electronic basket lock prevents basket removal during brewing and dripout.
