 program

Short Form Specification

Item No. _____

The PONY ESPRESSO POD is a very practical and effective solution for professionals who choose single-serve E.S.E. coffee POD to make espresso drinks. Coffee extraction quality and volume results are consistent through the days, weeks and months of operation on all selected drink sizes and quantities. The insertion of pods is very easy from the front top by the cup warmer, and the used pods are collected into a practicable and removable drawer. Drinks can be selected on the touch control box equipped with up to 6 programmable dosing selection, and with the possibility to make 1 or 2 espressos at a time per group. With its hot water and steam outlets, and a large boiler capacity, the PONY ESPRESSO POD has a truly professional application. Foaming and heating milk to a smooth consistency for perfect cappuccinos and lattes, is made very easy with the SteamAir automatic wand.
