691343 (PS09F1FRCO2)

1-door prostore Freezer
720lt, -22-15°C, AISI 304,
remote, CO2 with valve

Short Form Specification

Item No.

Full door freezer constructed in 304 AISI stainless steel with external bottom panel in anti-corrosive material. Large digital display featuring cabinet temperature display and setting and turbo frost cycle (to rapidly cool warm loads). HACCP-compliant control with alarms and history. Frost Watch Control to defrost only when required with automatic evaporation of defrost water. Optimized airflow provides even temperature distribution on all grids. Fitted with 65 mm-thick polyurethane insulating foam. Self-closing, on-site reversible door features microswitch to switch off the fan when the door is opened and heated door frame. Hidden evaporator to guarantee higher storage capacity and less corrosion problems. Remote refrigeration unit (not included). Specific for CO2 gas, valve is included. Ventilated operation; Interior LED light. For ambient temperatures up to 43 °C. Supplied with a built-in foot pedal, 5 x 700X530mm Rilsan coated grids and n. 5 sets of 2 stainless steel grid runners. Prearranged to fit RS485 port to facilitate connection to a remote computer and integrated HACCP systems.

Main Features

- IPX5 frontal water protection.
- Large storage area suitable to contain 700x530 mm grids to improve net capacity.
- Optimized airflow within the chamber guarantees uniformity of temperature on all grids.
- Hidden evaporator thus guaranteeing higher storage capacity and less corrosion problems.
- Greater storage space: internal structure with numerous charging positions available to host grids, ensuring higher net capacity.
- Adjustable temperature range from -15°C to -22°C.
- Model requires only 1 phase 230V/50Hz supply and can be plugged straight into an existing power socket.
- Tropicalized unit.
- Complies with main international certification bodies and is CE marked.
- Prearranged for remote alarm.
- Low noise level.
- Self closing and on site reversible left/right doors.

Construction

- Stainless steel AISI 304 external panels (galvanized external back).
- Inner cell with rounded corners, bottom pressed in only one piece.
- Stainless steel runners and supports easily disassembled.
- Internal components removable without the use of tools to facilitate cleaning operations.
- Pressed stainless steel door handle without joints gathering dust and dirt.
- Easy access to the main components for maintenance.
- Developed and produced in ISO 9001 and ISO 14001 certified factory.
- Automatic heated door frame.
- Solenoid valve included.
- Lockable door.

User Interface & Data Management

- Large digital white-digit display with cabinet temperature display and setting and turbo frost cycle (to rapidly cool warm loads).
- Connectivity ready for real time access to connected appliances from remote and data monitoring (requires optional accessory).
- Fully compliant HACCP digital control: when temperature exceeds critical limits, acoustic and visual alarms are activated. Up to two months of event are kept in memory.
- Electrolux Professional Fridge Control APP makes the life easier for our customers:
 - Monitor safety of preservation process thanks to HACCP data & alarms for precise control
 - Save time and easy data management having the possibility to send the HACCP information in excel format directly to e-mail address
 - Quick operations: set the cabinet temperature/turbocooling and set date/hour
- Large digital white-digit display with cabinet temperature display and setting. Bluetooth technology included allows to keep HACCP historical data and download them through the app.

Sustainability

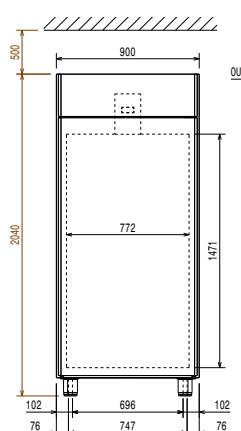

- CO₂ (R744) is the refrigerant choice that's safe for the environment and delivers outstanding performance.
 Eco-Friendly: Zero Ozone Depletion Potential and an ultra-low Global Warming Potential (GWP = 1).
 Safe to Use: Non-toxic and non-flammable for peace of mind.
 Sustainable: A natural refrigerant that supports a greener, cleaner planet.
- Frost Watch Control: fully automatic defrost starts only when ice is actually building-up in the evaporator and adapt the defrosting duration to guarantee perfect ice removal while optimizing energy efficiency consumption.
- Insulation thickness: 65 mm of polyurethane injected with ecological foaming gas cyclopentane to ensure effective insulation with minimum energy

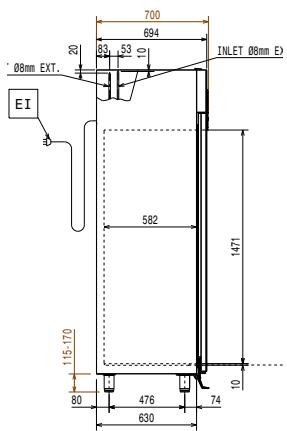

consumption (thermal conductivity: 0,020 W/m*K).

- Removable triple-chamber balloon magnetic gasket to improve insulation and reduce energy consumption and ease of cleaning.
- Optical door microswitch to stop the fan once the door is opened, thus minimizing energy waste.
- Interior LED light to save energy and for best internal visibility.

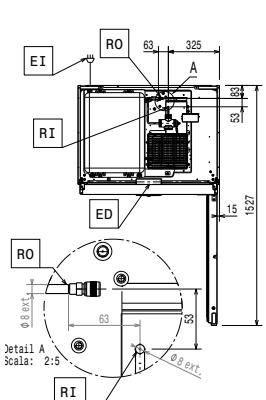

Front

Top

Electric

Supply voltage: 220-240 V/1 ph/50/60 Hz
Electrical power, max: 0.17 kW

Capacity:

Number and type of grids (included): 5 - 530x700

Key Information:

Door hinges:

External dimensions, Width: 900 mm

External dimensions, Depth: 700 mm

External dimensions, Depth with Doors Open: 1527 mm

External dimensions, Height: 2040 mm

Number and type of doors: 1 Full

Internal Dimensions, Width: 772 mm

Internal Dimensions, Depth: 582 mm

Internal Dimensions, Height: 1471 mm

Height adjustment: 15/40 mm

Type of external material: 304 AISI

Type of internal material: 304 AISI

Number of positions & pitch: 44; 22 mm

Gross capacity: 720 lt

Refrigeration Data

Control type: Digital

Refrigeration type: R744

Operating mode: Ventilated

Cooling unit: Remote

Suggested refrigeration power: 654 W

Condition at evaporation temperature: -30 °C

Condition at condensation temperature: 55 °C

Condition at ambient temperature: 43 °C

Connection pipes (remote) - outlet: 8 mm

Connection pipes (remote) - inlet: 8 mm

***Note:** Ref. Power calculated at a linear distance of 15 mt (piping)
