725484 (ESP142FRC)

2-door Refrigerator 1430lt, -2+10°C (R290), digital, AISI 304, Class B

# **Short Form Specification**

#### Item No.

Two full door refrigerator entirely constructed in 304 AISI stainless steel with bottom panel in anti-corrosive material. Large digital display featuring humidity selection button (3 preset level), cabinet temperature display and setting, manual activation of defrost cycle and turbo frost cycle (to rapidly cool warm loads). HACCP-compliant control with alarms and history. Frost Watch Control to defrost only when required with automatic evaporation of defrost water. Optiflow: back to front forced air flow and removable air conveyors provides even temperature distribution and fast cooling in any conditions. Fitted with 75 mm-thick cyclopentane insulating foam. Door features lock and door microswitch to switch off the fan when the door is opened. Hidden evaporator to guarantee higher storage capacity and less corrosion problems. Built-in refrigeration unit; ventilated operation; Internal LED light. CFC and HCFC free. R290 gas in refrigeration circuit. Supplied with n. 8x2/1GN Rilsan coated grids and n. 8 sets of 2 stainless steel grid runners.

#### **Main Features**

- Operating temperature can be adjusted from -2 to +10 °C to suit different food storage requirements.
- Performance guaranteed at ambient temperatures of +40°C (Climatic class 5).
- Possibility to select 3 different levels of humidity according with the type of food stored inside.
- Cabinet fitted with up to 75 mm thickness of cyclopentane insulation for best insulating performance with 100% environmental protection (thermal conductivity: 0,020 W/m\*K).
- 60 mm-thick insulation covering the evaporator can be easily removed with a single operation.
- Large digital white-digit display with cabinet temperature display and setting, and possibility to select the desired levels of humidity. Bluetooth technology included allows to keep HACCP historical data and download them through the
- Digital control panel allowing the easy and precise setting and control of the internal temperature.
- Optiflow: back to front forced air flow and removable air conveyors provide even temperature distribution and fast cooling in any conditions.
- Electrolux Professional Fridge Control APP make the life easier for our customers (available from April
- Monitor safety of preservation process thanks to HACCP data & alarms for precise control
- Save time and easy data management having the possibility to send the HACCP information in excel format directly to e-mail address
  - Quick operations: set the cabinet temperature/
- humidity/turbocooling and set date/hour
- Easy serviceability thanks to the intuitive control panel with access via app.
- Fully compliant HACCP digital control: when temperature exceeds critical limits, acoustic and visual alarms are activated. Up to 30 days of event are kept in memory.
- Connectivity ready for real time access to connected appliances from remote and data monitoring (requires optional accessory).
- Integrated RS485 port to facilitate connection to a remote computer and integrated HACCP systems.
- Large storage area suitable to contain 2/1 GN grids or shelves on anti-tilt runners.
- Rilsan coated grids for improved protection.

## Construction

- Constructed from the highest quality AISI 304 Stainless steel.
- Interior base with rounded corners, pressed from a single sheet.
- The rounded internal corners, the easily removable runners, grids and air conveyors allow for ease of cleaning and high hygiene standards.
- Anti-corrosion bottom avoids any damage that may be caused to the cabinet by aggressive detergents employed to clean the floors.
- Easy access to the main components for maintenance.

#### APPROVAL:

• Lockable door.

### Sustainability

- Frost Watch Control: fully automatic defrost starts only when ice is actually building-up in the evaporator and adapt the defrosting duration to guarantee perfect ice removal while optimizing energy efficiency consumption.
- Automatic evaporation of the defrosting water by hot gas on the top for energy saving.
- Cleaning-free condenser: the structure of the wire frame condenser prevents dust and grease accumulation thus avoiding periodical cleaning operations and reducing energy consumption.
- CFC and HCFC-free insulation.
- CFC and HCFC free, highly ecological refrigerant type: R290 (ecological gas in foam: cyclopentane). Hydrocarbon refrigerant gas R290 for the lowest environmental impact (GWP=3), to reduce green house and ozone depletion effects.
- Door switch stops the fan when door is opened to avoid cold air exiting the cell, thus saving energy.
- Removable triple-chamber balloon magnetic gasket to improve insulation and reduce energy consumption and ease of cleaning.
- Improved defrost and evaporator fan management defrost type changes with temperature set-point: electric below +2° C while air convection defrost above +2°C, thus saving energy.
- Interior LED light to save energy and for best internal visibility.

#### **Included Accessories**

8 of 2/1GN grey rilsan grid with 2 PNC 881020 runners

## Optional Accessories

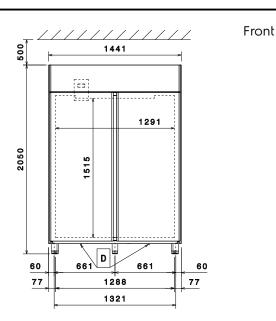

h=150mm

	nless steel runners for refrigerated ets - (Marine)	PNC	880242	
• Set o	8 GN1/1 PVC containers for fish	PNC	880243	
	er for 670 It and 1430 It erated cabinets	PNC	880248	
• Kit 20 fit pas	pair runners and tray supports to stry trays (400x600mm)	PNC	880333	
	6 swivelling wheels, 2 with brake, 50 mm	PNC	880340	
• 1/1GN botto	l plastic container with false m	PNC	880705	
• 2/1GN	l grey rilsan grid	PNC	881004	
• 2/1GN	l aisi 304 stainless steel grid	PNC	881016	
• 2/1GN 2 runi	N 304 AISI stainless steel grid with ners	PNC	881018	
	rail for 670/1430It refrigerators hooks	PNC	881019	
• 2/1GN	I grey rilsan grid with 2 runners	PNC	881020	
	f 2 stainless steel runners for 430lt refrigerators and freezers	PNC	881021	
• Peda	opening for 1430lt refrigerator	PNC	881033	
• 2/1GN runne	I pvc container with lid and 2 rs	PNC	881039	
• 2/1GN	l perforated shelf	PNC	881042	
• 1/1GN	rilsan steel wire basket h=150mm	PNC	881043	
	y rilsan central grids for 1430lt (not ass door)	PNC	881044	
• 2/1GN	l grey rilsan basket+2 runners	PNC	881047	

•	125mm, for 1430 It refrigerators, NOT for remote models		
•	IOT module for refrigerated cabinets and counters	PNC 881298	
	POF switch	DNC 022/32	

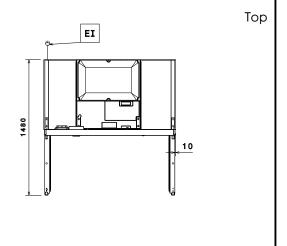

## Electrical inlet (power)

#### **Electric**

Supply voltage:

725484 (ESP142FRC) 220-240 V/1 ph/50 Hz

Electrical power max.: 0.2 kW

## **Key Information:**

Gross capacity: 1430 lt Net Volume: 1160 It Door hinges: 1 Left+1 Right External dimensions, Width: 1441 mm External dimensions, Depth: 835 mm External dimensions, Depth with Doors Open: 1480 mm

2050 mm External dimensions, Height: Number and type of doors: 2 Full

Number and type of grids

8 - GN 2/1 (included): **304 AISI** Type of external material: Type of internal material: **304 AISI 304 AISI** Internal panels material: 44; 30 mm Number of positions & pitch:

#### **Refrigeration Data**

Side

Control type: Digital Refrigeration power at -10 °C evaporation temperature: -2 °C Operating temperature min.: Operating temperature max.: 10  $^{\circ}\text{C}$ Operating mode: Ventilated

## Product Information (EU Regulation 2015/1094)

Type of model (EU Reg. 2015/1094):

vertical chilled

### Sustainability

Energy Class (EU Reg. 2015/1094): В

Yearly and daily energy

consumption (EU Reg.

2015/1094): 790kWh/year - 2kWh/24h

Climate class (EU Reg.

2015/1094): Heavy Duty (5)

Energy Efficiency Index-EEI (EU Reg. 2015/1094): 31.41 Refrigerant type: R290 **GWP Index:** 3 395 W Refrigeration power: Refrigerant weight: 120 g

**EU energy labelling from 1st July 2016** The European energy labelling scheme for professional

The European energy labelling scheme for professional refrigerators and freezers is based on requirements setting Minimum Energy Performance standards for commercial refrigeration cabinets sold within the EU. These requirements are designed to drive energy efficiency and environmentally friendly approach for professionals. The European energy labelling scheme will apply to all manufacturers and importers who sell and market products within the EU and it is mandatory across Europe. Important: all products which consume energy above the minimum level will not be able to be sold within the EU from 1 July 2016.

SI 2020 No. 1528.

Important: all products which consume energy above the minimum level will not be able to be sold within the EU from 1 July 2016.
