Electrolux PROFESSIONAL

SkyLine ChillS Blast Chiller-Freezer 6GN1/1 30/30 kg

Short Form Specification

Item No.

- Blast chiller freezer with high resolution full touch screen interface, multilanguage.
- For 6 GN 1/1 or 600x400 trays. Up to 8 ice cream basins (360x250x80h mm).
- Load capacity: chilling 30 kg; freezing 30 kg.

 OptiFlow air distribution system to achieve maximum performance with 7 fan speed levels.

- Chilling/Freezing modes: Automatic (10 food families with 100+ different pre-installed variants); Programs (a maximum 1000 programs can be stored and organized in 16 different categories); Manual (soft chilling, hard chilling, freezing, holding, turbo cooling and lite hot cycles); Specialistic Cycles (Cruise chilling, proving, retarded proving, fast thawing, Sushi&Sashimi, Sous-Vide chilling, ice-cream, yogurt and chocolate).

 Special functions: MultiTimer chilling/freezing, Make-it-Mine to customize interface, SkyHub to customize homepage, agenda MyPlanner, SkyDuo connection to SkyLine ovens.

- Remaining time estimation for probe-driven cycles based on artificial intelligence techniques (ARTE 2.0).

- Automatic and manual defrosting and drying.
- USB port to download HACCP data, programs and settings. Connectivity ready.
- 3-point multi sensor core temperature probe.
- Stainless steel construction throughout.
- Internal rounded corners.
- Built-in refrigeration unit.
- R452a refrigerant gas.

- Performance guaranteed at ambient temperatures of +43°C (Climatic class 5).

ITEM # MODEL # NAME # SIS # AIA

Main Features

- Blast Chilling cycle: 30 kg from +90°C up to + 3°C.
- X-Freeze cycle: ideal for blast freezing all kinds of food (raw, half or fully cooked).
- Lite-Hot cycle: ideal for soft heating preparations.
- Turbo cooling: chiller works continuously at the desired temperature; ideal for continuous production.
- Automatic mode including 10 food families (meat, poultry, fish, sauces and soup, vegetables, pasta/ rice, bread, savory and sweet bakery, dessert, beverage fast cooling) with 100+ different preinstalled variants. Through Automatic Sensing Phase the blast chiller optimizes the chilling process according to size, quantity and type of food loaded to achieve the selected result. Real time overview of the chilling parameters. Possibility to personalize and save up to 70 variants per family.
- Cycles+:
- Cruise Cycle (Patented EP1716769B1 and related family) automatically sets the parameters for the quickest and best chilling (it works with probe) - Proving
- Retarded Proving
- Fast Thawing
- Sushi&Sashimi (anisakis-free food)
- Chill Sous-vide
- Ice Cream
- Yogurt
- Chocolate
- Programs mode: a maximum of 1000 programs can be stored in the blast chiller's memory, to recreate the exact same high standard at any time. The programs can be grouped in 16 different categories to better organize the menu. 16-step chilling programs also available.
- MultiTimer function to manage up to 20 different chilling cycles at the same time, improving flexibility and ensuring excellent results. Can be saved up to 200 MultiTimer programs.
- OptiFlow air distribution system to achieve maximum performance in chilling/heating eveness and temperature control thanks to a special design of the chamber combined with high precision variable speed fan.
- Fan with 7 speed levels. Fan stops in less than 5 seconds when door is opened.
- 3-point multi sensor core temperature probe for high precision and food safety.
- 6-point multi sensor core temperature probe for maximum precision and food safety (optional accessory).
- Remaining time estimation for probe-driven cycles based on artificial intelligence techniques (ARTE 2.0 Patented US7971450B2 and related family) for an easier planning of the activities.
- Customizable pre-cooling and pre-heating functions.
- Automatic and manual defrosting and drying.
- Performance guaranteed at ambient temperatures of +43°C (Climatic class 5).
- Freezing cycle: 30 kg from 90°C up to -41°C.
- Multi-purpose internal structure suitable for

APPROVAL:

gastronorm, bakery trays or ice-cream basins.

Construction

- Built-in refrigeration unit.
- Solenoid valve to automatically manage the gas pressure in the thermodynamic circuit.
- Main components in 304 AISI stainless steel.
- Evaporator with antirust protection.
- Motors and fan waterproof protected IP54.
- Hygienic internal chamber with all rounded corners for easy cleaning.
- Removable magnetic gasket door with hygienic design.
- Ventilator swinging hinged panel for access to the evaporator for cleaning.
- Door stopper to keep the door open in order to avoid the formation of bad smells (kit available to be mounted on site, depending on preferred door hinge).
- Automatic heated door frame.

User Interface & Data Management

- High resolution full touch screen interface (translated in more than 30 languages) - color-blind friendly panel.
- Pictures upload for full customization of cycles.
- Make-it-mine feature to allow full personalization or locking of the user interface.
- SkyHub lets the user group the favorite functions in the homepage for immediate access.
- MyPlanner works as an agenda where the user can plan the daily work and receive personalized alerts for each task.
- With SkyDuo the Oven and the Blast Chiller are connected to each other and communicate in order to guide the user through the cook&chill process optimizing time and efficiency (requires optional accessory).
- USB port to download HACCP data, share chilling programs and configurations.
- Connectivity ready for real time access to connected appliances from remote and HACCP monitoring (requires optional accessory).
- Trainings and guidances supporting materials easily accessible by scanning QR-Code with any mobile device.
- Automatic consumption visualization at the end of the cycle.

Sustainability

- Human centered design with 4-star certification for ergonomics and usability.
- Holding at +3 °C for chilling or -22 °C for freezing, automatically activated at the end of each cycle, to save energy and maintain the target temperature (manual activation is also possible).

Included Accessories I of Worktop for 6 GN 1/1 block

 1 of Worktop for 6 GN 1/1 blast chiller freezer 	PNC 880581	
 1 of 3-sensor probe for blast chiller freezer 	PNC 880582	
Optional Accessories		
 Bakery/pastry grid for blast chiller, lengthwise (600x400mm) 	PNC 880294	
• Stacking kit for 6 GN 1/1 oven on 6 GN 1/1 blast chiller freezer - 100mm height	PNC 880565	
• 6-sensor probe for blast chiller freezer	PNC 880566	
 Kit of 3 single sensor probes for blast chiller/freezers 	PNC 880567	
 Worktop for 6 GN 1/1 blast chiller freezer 	PNC 880581	
• 3-sensor probe for blast chiller freezer	PNC 880582	
 5 stainless steel runners for 6 & 10 GN 1/1 blast chiller freezer 	PNC 880587	
 Flanged feet for blast chiller freezer 	PNC 880589	
 4 wheels for blast chiller tower execution with oven 	PNC 880676	
 4 wheels for blast chiller freezer 	PNC 881284	
 Pair of AISI 304 stainless steel grids, GN 1/1 	PNC 922017	
 AISI 304 stainless steel grid, GN 1/1 	PNC 922062	
AISI 304 stainless steel bakery/pastry grid 400x600mm	PNC 922264	
• Connectivity hub (SIM) Router Ethernet + WiFi + 4G (UE)		
Connectivity hub (LAN) Router Ethernet + WiFi		
 IoT module for OnE Connected and SkyDuo (one IoT board per appliance - to connect oven to blast chiller for Cook&Chill process). 	PNC 922421	
 Connectivity router (WiFi and LAN) 	PNC 922435	
 SkyDuo Kit - to connect oven and blast chiller freezer for Cook&Chill process. The kit includes 2 boards and cables. Not for OnE Connected 	PNC 922439	
• Tray rack with wheels, 6 GN 1/1, 65mm pitch	PNC 922600	
• Tray rack with wheels, 5 GN 1/1, 80mm pitch	PNC 922606	
• Bakery/pastry tray rack with wheels 400x600mm for 6 GN 1/1 oven and blast chiller freezer, 80mm pitch (5 runners)	PNC 922607	
• Trolley for slide-in rack for 6 & 10 GN 1/1 oven and blast chiller freezer	PNC 922626	
 Probe holder for liquids 	PNC 922714	

Probe holder for liquids
 PNC 922714
