AIA #	

#### Main Features

- The ice making method guarantees a continuous and reliable production.
- Easy cleanability guaranteed by an automatic system: the cleaning switch activate the circulation and the rinse of water; at the end of the cycle just swithed again to start producing ice.
- The ice-making method (spray layering) guarantees crystalline, compact, hygienically pure ice cubes that are resistant to melting.
- Water consumption and productivity calculated using 15°C water temperature and 21°C ambient temperature.
- Compact dimensions of the ice cubers make them highly suitable for any location, particularly those where space is at a premium.
- Ice cube cone shape.
- Fully automatic in operation.
- Rounded internal corners of the bin assure ease of cleaning.
- Food grade ABS interior.
- Suitable for gravity drain only.
- Bin included.
- Compliant to CE requirements for safety.
- The innovative anti-scale spray system with flexible nozzles avoids limescale deposits through small vibrations.

#### Construction

- Reliability guaranteed by the quality of the construction materials used (front, top and sides in 304 AISI stainless steel) and the sophisticated product and process technology involved.
- The sprayers are easy to take away, permit a simple flowing and prevent limestone formation.
- AISI 304 stainless steel exterior.
- Aluminium evaporator ensures a safe contact with ice.
- Sturdy door opening system made in AISI 304 stainless steel.
- Internal ice containers in ABS.
- Hygienical plastic spray arms removable without the use of tools.
- Supplied with flexible water supply, drain hoses and scoop.
- Easy access to the main components for maintenance.
- ON-OFF rocker switch.
- Plug as standard (schuko type).

#### APPROVAL:

### **Sustainability**

• Reduced energy consumption by fully insulated storage bin.

## **Optional Accessories**

• Drain pump kit
