3-concentric Burners gas
Boiling Top (1x5 kW, 1x10 kW,
1x15 kW) - HP

Short Form Specification

Item No. _____

To be installed on open base installations, bridging supports or cantilever systems. 3 high efficiency burners (5 kW, 10 kW and 15 kW) with optimized combustion and protected pilot light. Flame failure device as standard on burners to protect against accidental extinguishing. Exterior panels of unit in stainless steel with Scotch Brite finish. Pan supports in cast iron. Extra strength work top in 20/10 stainless steel.

Main Features

- Unit to be mounted on open base cupboards, bridging supports or cantilever systems.
- The concentric one 5 kW, one 10 kW and one 15 kW high efficiency burners with optimized combustion, flame failure and protected pilot light are supplied in three sizes to suit high performing cooking requirements of the most demanding customers:
 - 60 mm diameter with a power of 5kW
 - 180 mm diameter with a power of 10 kW
 - 350 mm diameter with a power of 15 kW
- Gas appliance supplied for use with LPG gas, conversion jets supplied as standard.
- Large sized pan support in cast iron with long center fins to allow the use of the largest down to the smallest pans.
- Flame failure device on each burner protects against gas leakage when accidental extinguishing of the flame occurs.
- Separate controls for each burner to be ignited based on the size of the paella pan (manual ignition of the top burners).
- The special design of the control knob system guarantees against water infiltration.
- Work top in 20/10 Stainless steel.
- IPX5 water protection.
- Suitable for countertop installation.

Construction

- All exterior panels in Stainless Steel with Scotch Brite finishing.
