40+40-It electric Pasta Cooker with 2 wells

## **Short Form Specification**

## Item No.

Infrared heating system. Constant starch removal during the cooking process. The 40 liter tanks are pressed in 316-L type Stainless steel to protect against corrosion. Safety thermostat and electromechanical sensor prevent the machine from working without water. Height adjustable feet in stainless steel. Exterior panels in stainless steel. Worktop in 20/10, stainless steel. Right angled side edges eliminate gaps and possible dirt traps between units.

## Main Features

- In addition to cooking pasta, the appliance can be used for noodles of every kind, rice, dumplings and vegetables.
- Unit to have infared heating system positioned beneath the base of the well.
- Water basin in 316-L type Stainless steel.
- Water basin is seamlessly welded into the top of the appliance.
- Provided with integrated drip zone on which baskets can be placed for draining purposes.
- Automatic starch removal function during cooking: improved water quality over time.
- Automatic low-water level shut-off: no accidental over-heating.
- Easy-to-use control panel.
- Continuous water filling regulated through a manual water tap.
- Large drain with manual ball-valve for fast emptying of well.
- All major compartments located in front of unit for ease of maintenance.
- Automatic lifting system (optional accessory): 200mm wide unit with three stainless steel basket supports, holding one GN 1/3 basket each, to be placed on either or both sides of machine to provide automatic lifting for six small portion baskets (to be ordered separately). Possibility to memorize nine cooking times through digital control.
- The special design of the control knob system guarantees against water infiltration.
- One piece pressed 2 mm work top in Stainless steel.
- Unit delivered with four 50 mm legs in stainless steel as standard (all round Stainless steel kick plates as option).
- 40 liters water basins.

### Construction

- All exterior panels in Stainless Steel with Scotch Brite finishing.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
- IPX5 water resistance certification.

## Sustainability

 ESD available as accessory (installed separately): energy saving device uses heat produced by water drained through the overflow to pre-heat tap-in water up to 60°C, for constant water boiling.

### APPROVAL:
