Main Features

- Filtering surface protects against fire hazard.
- Requires connection to an external exhaust air duct.
- Frontal labyrinth and condensation filters are easy to remove and cleanable in a dishwasher.
- Can be used with 6 and 10 GN 2/1 LW combi ovens.
- Double step door opening (PNC 922265) is suggested to improve filtering performance.

Construction

- Constructed entirely in 304 AISI stainless steel.
- Prefiltering of exhaust steam through stainless steel labyrinth filters.
- Developed and produced in ISO 9001, ISO 14001 and ISO 50001 certified factory.
- Must be installed in a space where normal aeration, according to regulations, is present.

Optional Accessories

 Hood Hopper to directly connect the Hood to the centralized ventilation system, for Standard Hoods (with fan motor) and Hoods without fan motor

Electrolux PROFESSIONAL
