Electric Pressure Braising Pan 170lt (s) with steam condensation function, core temperature sensor and mixing tap, GuideYou panel, freestanding

## **Short Form Specification**

#### Item No.

AISI 304 stainless steel construction. Pan in AISI 304 stainless steel: 18mm thick pan bottom (15mm mild steel and 3 mm AISI 316 stainless steel). Insulated and counterbalanced lid. Water mixing unit included. Unit to include food tap. The electric heating elements are mounted under the well. Safety thermostat protects the pan from overheating. A precise, electronic control of pan bottom temperature ensures fast reaction and exact adherence to preselected cooking temperatures between 50° and 250°C. The steam condensation function automatically nullifies the steam pressure after cooking is completed at the end of the cooking cycle. It can be used for poaching or steaming (with the lid open); simmering and boiling (with open or closed lid); pressure cooking of multiple produces possible thanks to the use of suspended GN 1/1 containers. TOUCH control panel. SOFT function. PRESSURE function. Possibility to store recipes in single or multiphase cooking process, with different temperature settings. Built in temperature sensors for precise control of cooking process. Core Temperature Sensor provides efficient temperature control. IPX6 water resistant. Configuration: Free-standing or Standing against a wall. Installation options (not included): floor mounted on 100mm high feet or a plinth which can be either steel or masonry construction.

#### Main Features

- Multifunctional cooking appliance used for roasting, pot-roasting, braising, simmering, boiling, pressure cooking and steaming.
- Square inner kettle allows working with stacked Gastronorm containers, which facilitate loading and unloading operations.
- Thermoblock heating system for optimal temperature distribution and high temperature stability.
- Pan bottom with two individually adjustable heating zones, each with a temperature sensor.
- Large capacity food tap enables safe and effortless discharging of contents.
- Easy to clean cooking surface due to largeradius edges and corners.
- Temperature sensors provides efficient temperature control: the power is supplied as and when required to keep the set temperature value without exceeding it.
- Cooking with a working pressure of 0.45 bar reduces cooking times.
- Optimum heat distribution in the food provides best cooking results in terms of taste, colour and consistency and in terms of vitamin preserving.
- Discharge tap is very easy to disassemble and clean.
- Overnight cooking: saving electricity and time.
- Safety mechanism prevents lid from opening, even in case of voluntary attempt, when cooking under pressure.
- Safety valve on the lid avoids overpressure in the food compartment.
- IPX6 water resistant.
- "Pressure function": once the pressure lid is locked, the system automatically regulates itself.
- Built in temperature sensor to precisely control the cooking process.
- Core Temperature Sensor (CTS): multi-sensor food probe, 6 sensors, 0,5 °C accuracy, provides efficient temperature control. The power is supplied as and when required to keep the set temperature value without exceeding it and once reached, the food is ready to be served.
- No overshooting of cooking temperatures, fast reaction.
- USB connection to easily update the software, upload/download recipes and download HACCP data.

#### Construction

• Minimised presence of narrow gaps for easier

## High Productivity Cooking Electric Pressure Braising Pan, 1701t Freestanding with CTS & Tap

#### boiling

- Pressure mode (in pressure models)
- Stirrer ON/OFF settings (in round boiling models)
- Error codes for quick trouble-shooting
- Maintenance reminders

#### User Interface & Data Management

• Connectivity ready for real time access to connected appliances from remote and data monitoring (requires optional accessory - contact the Company for more details).

#### Sustainability

• High-quality thermal insulation of the pan saves energy and keeps operating ambient temperature low.

### **Optional Accessories**

- Strainer for dumplings for all tilling & stationary braising and pressure braising pans (except 80lt) and for all stationary rectangular and 100lt round boiling pans
- PNC 910058 📮 Scraper for dumpling strainer for boiling and braising pans
- PNC 910191 • Suspension frame GN1/1 for rectangular boiling and braising
- Base plate 1/1 GN for braising PNC 910201 pans
- PNC 910211 Perforated container with handles 1/1GN (height=100mm) for boiling and braising pans
- Perforated container with PNC 910212 handles 1/1GN (height 150mm) for boiling and braising pans
- Small perforated shovel for PNC 911577 braising pans (PFEN/PUEN)
- Small shovel for braising pans PNC 911578 (PFEN/PUEN)
- PNC 911673 • Perforated container with handles 1/1GN (height 200mm) for boiling and braising pans
- 16A/400V, IP67, red-white factory fitted • Power Socket, CEE32, built-in, PNC 912469 🔲 32A/400V, IP67, red-white -
