**586509 (PBEN08EAEM)**

 Electric Boiling Pan 80lt (h),  
 rectangular with mixing tap,  
 GuideYou panel,  
 freestanding

### Short Form Specification

#### Item No.

AISI 304 stainless steel construction. Deep drawn vessel in AISI 316 stainless steel. Insulated and counterbalanced lid. Water mixing unit included. Unit to include food tap. Food is uniformly heated via the base and the side walls of the pan by an indirect heating system using integrally generated saturated steam at a maximum temperature of 125°C in a jacket with an automatic deaeration system. Safety valve avoids overpressure of the steam in the jacket. Safety thermostat protects against low water level in the double jacket. TOUCH control panel. SOFT function. Possibility to store recipes in single or multiphase cooking process, with different temperature settings. Built in temperature sensors for precise control of cooking process. IPX6 water resistant. Configuration: Free-standing or Standing against a wall. Installation options (not included): floor mounted on 200mm high feet or a plinth which can be either steel or masonry construction.

### Main Features

- Kettle is suitable to boil, steam, poach, braise or simmer all kinds of produce.
- Square inner kettle allows working with stacked Gastronorm containers, which facilitate loading and unloading operations.
- Large capacity food tap enables safe and effortless discharging of contents.
- Isolated upper well rim avoids risk of harm for the user.
- Discharge tap is very easy to disassemble and clean.
- IPX6 water resistant.
- Built in temperature sensor to precisely control the cooking process.
- USB connection to easily update the software, upload/download recipes and download HACCP data.
- Connectivity ready for real time access to connected appliances from remote and data monitoring (requires optional accessory - contact the Company for more details).

### Construction

- Cooking vessel in 1.4435 (AISI 316L) stainless steel. Double-jacket in 1.4404 (AISI 316L) stainless steel designed to operate at a pressure of 1.5 bar.
- External panelling and internal frame made of 1.4301 (AISI 304) stainless steel.
- Safety valve avoids overpressure of the steam in the double jacket.
- 2" diameter discharge tap for rapid emptying of the well.
- Minimised presence of narrow gaps for easier cleaning of the sides to meet the highest hygiene standards.
- Integrated water mixing tap to make water filling and pan cleaning operations easier.
- Can be prearranged for energy optimisation or external surveillance systems (optional).
- GuideYou Panel - activated by the user via settings - to easily follow the multiphase recipes, granting a proper and controlled cooking and a better appliance optimization. The system will provide maintenance reminders, in line with ESSENTIA program, helping the user to properly take care of the product, avoiding downtimes.
- Highly-visible and bright led TOUCH control panel features user-friendly icons and intuitive self-explanatory command options. Display visualizes:
  - Actual and set temperature
  - Set and remaining cooking time
  - Pre-heating phase (if activated)

APPROVAL: \_\_\_\_\_

- GuideYou Panel (if activated)
- Deferred start
  - Soft Function to reach the target temperature smoothly
- 9 Power Control levels from simmering to fierce boiling
- Pressure mode (in pressure models)
- Stirrer ON/OFF settings (in round boiling models)
- Error codes for quick trouble-shooting
- Maintenance reminders

### Sustainability

- High-quality thermal insulation of the pan saves energy and keeps operating ambient temperature low.

### Optional Accessories

## Electric

### Supply voltage:

586509 (PBEN08EAEM) 400 V/3N ph/50/60 Hz

### Total Watts:

18.2 kW

## Installation:

### Type of installation:

FS on concrete base; FS on feet; On base; Standing against wall

## Key Information:

### Configuration:

Rectangular; Fixed; FreeStanding

### Working Temperature MIN:

50 °C

### Working Temperature MAX:

110 °C

### Vessel (rectangle) width:

356 mm

### Vessel (rectangle) height:

461 mm

### Vessel (rectangle) depth:

556 mm

### External dimensions, Width:

700 mm

### External dimensions, Depth:

800 mm

### External dimensions, Height:

700 mm

### Net weight:

150 kg

### Net vessel useful capacity:

80 lt

### Double jacketed lid:

✓

### Heating type:

Indirect
