Features

- al control panel allowing the easy and precise ng and control of the internal temperature.
- rating temperature can be adjusted from -2 to C to suit different food storage requirements.
- plies with main international certification les and is CE marked.
- ibility to install on socklet.
- 2 drawers available as accessory.
- pletely automatic defrosting and automatic poration of defrost water by hot gas.
- ed air cooling system guaranteeing great rmity of the temperature in the counter and llent conservation of the food quality.
- '3 drawers available as accessory.
- nectivity ready for real time access to nected appliances from remote and data itoring (requires optional accessory).
- serviceability thanks to the intuitive control el with access via app.
- grated RS485 port to facilitate connection to a ote computer and integrated HACCP systems.

truction

- -in compressor to suit operating conditions.
- and HCFC free.
- in 304 AISI stainless steel (150 mm high, stable in height), with plastic interior.
- nal and external doors, front and side panels 50mm thick removable worktop in 304 AISI less steel.
- panel in galvanized steel.
- door self-closes when opened less than at a angle and is equipped with a door seal to antee perfect closure.
- standards of hygiene and ease of cleaning guaranteed by the rounded internal corners of abinet and easily removable runners and grids.

ded Accessories

Kit 1/1 grey rilsan grid and 2 PNC 881109 runners for refrigerated iters

onal Accessories

- PNC 881107 N grey rilsan grid for gerated counters
- e runners for 1/1 GN ecostore PNC 881108 gerated counters
- PNC 881109 '1 grey rilsan grid and 2 side ers for refrigerated counters
- N plastic container, H=65 PNC 881110
- N plastic container, H=100 PNC 881111
- N plastic container, H=150 PNC 881112
- PNC 881176 drawer kit for refrigerated nters - h650mm

EU energy labelling from 1st July 2016 The European energy labelling scheme for professional

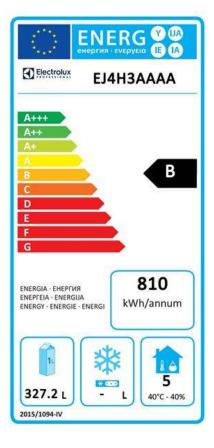

refrigerators and freezers is based on requirements setting Minimum Energy Performance standards for commercial refrigeration cabinets sold within the EU. These requirements are designed to drive energy efficiency and environmentally friendly approach for professionals. The European energy labelling scheme will apply to all manufacturers and importers who sell and market products within the EU and it is mandatory across Europe. Important: all products which consume energy above the minimum level will not be able to be sold within the EU from 1 July 2016.

SI 2020 No. 1528.

Important: all products which consume energy above the minimum level will not be able to be sold within the EU from 1 July 2016.
